The testimony is incorrect and should be revised to say, “Velvet Tech Services will have tremendous local impact through their community engagement efforts...”

- Were said local impact community engagements an explicit contractual term as a result of economic development subsidies obtained?

No.

- Will said local impact community engagements be an explicit contractual term for its engagement in this project? If yes, what explicitly will be required? If no, why not?

No. These engagements are independent of their electric service and the economic development requirements.
