In the Matter of the Verified Application of)
Laclede Gas Company for an Order Establishing)
Replacement Requirements for the Final)
Phase of its Unprotected Steel Main Replacement)
Program Previously Approved Pursuant to)
Rule 4 CSR 240-40.030(15)(E).)

Case No. GO-2003-0506

ORDER REGARDING STATUS REPORT AND DIRECTING FILING

On March 5, 2004, the Commission issued a report and order that established requirements for the final phase of Laclede Gas Company's program to replace unprotected steel mains within its gas distribution system. That order required Laclede to replace an average of 10,000 feet of main each year until all remaining unprotected steel mains have been replaced. The Commission also ordered its Staff to file annual status reports regarding Laclede's progress. Staff filed its annual report on April 25, 2012.

Staff reports that Laclede eliminated 12,105 feet of unprotected steel main in fiscal year 2011. During the period of fiscal year 2003 through fiscal year 2011, Laclede has replaced an average of 10,542 feet of unprotected steel main per year. Thus, Laclede has complied with the requirements of the Commission's 2004 order. Staff further reports that Laclede has 28,514 feet of unprotected steel main remaining to be replaced.

The Commission will direct Staff to continue to monitor Laclede's unprotected steel main replacement program and to file its next status report by May 3, 2013.

THE COMMISSION ORDERS THAT:

1. The Staff of the Commission shall file its next annual status report no later than May 3, 2013.
2. This order shall become effective upon issuance.

BY THE COMMISSION

(S E A L)

Steven C. Reed
Secretary

Morris L. Woodruff, Chief Regulatory
Law Judge, by delegation of authority
pursuant to Section 386.240, RSMo 2000.

Dated at Jefferson City, Missouri,
on this 25th day of April, 2012.
