for change of electric supplier.)

APPLICATION FOR CHANGE OF ELECTRIC SERVICE PROVIDER

1. Applicant's address is: 131 Kelly Drive

2. The name of Applicant's current electric service provider is: City of Butler

3. Applicant requests the Missouri Public Service Commission to order a change of electric supplier to the address indicated above.

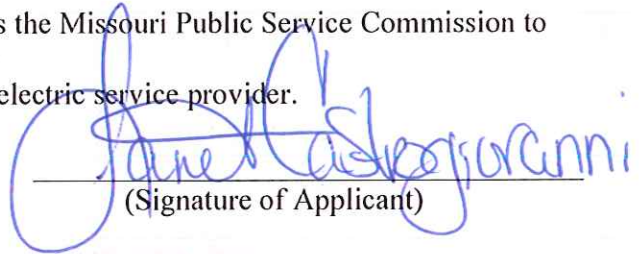

4. Applicant requested the Commission to order a change of electric supplier from City of Butler (Current) to Osage Valley (Requested)

5. Applicant requests the Missouri Public Service Commission to order a change of electric provider for the following reasons. * Our property is not within the city limits but we are currently receiving power from the City of Butler. Their ordinances will not allow any expansion of services including adding a second meter for outbuildings. The properties in our housing area were constructed after 1991 so the understanding is that the services provided are illegal as there is no written agreement between the City of Butler and Osage Valley and no ownership papers for the electric lines can be found.

6. Applicant has taken the following steps in an attempt to work out electric service problems with the electric service provider: Members of our housing addition have contacted the city and have been advised the subject has been addressed at several city council meetings. No one has been given any information as to what the city is doing to rectify the situation. For this reason we are respectfully asking to be transferred to Osage Valley.

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)
