

**KCP&L GREATER MISSOURI OPERATIONS
COMPANY (GMO)**

**2011 ANNUAL RENEWABLE ENERGY STANDARD
COMPLIANCE REPORT**

Prepared in Compliance with 4 CSR 240-20.100

15-April-2012

SECTION 1: INTRODUCTION

KCP&L Greater Missouri Operations Company ("GMO"), a Delaware Corporation, has filed its 2011 Annual Renewable Energy Standard Compliance Report in compliance with the Missouri Public Service Commission's ("Commission") Electric Utility Renewable Energy Standard Requirements [4 CSR 240-20.100] ("Rule") that became effective September 30, 2010. Section (7) of the rule requires that each public utility file with the Commission a Renewable Energy Standard (RES) Compliance Report by April 15 of each year. Where utilized, "MPS" shall represent the jurisdiction formerly served as Missouri Public Service and "SJLP" shall represent the jurisdiction formerly served as St. Joseph Light & Power.

Specifically, Section 7 (A) of the Rule requires the following information for the most recently completed calendar year.

- A. Total retail electric sales for the utility, as defined by the Rule;
- B. Total jurisdictional revenue from the total retail electric sales to Missouri customers as measured at the customers' meters;
- C. Total retail electric sales supplied by renewable energy resources, as defined by section 393.1025(5), RSMo, including the source of the energy;
- D. The number of RECs and S-RECs created by electrical energy produced by renewable energy resources owned by the electric utility. For the electrical energy produced by these utility-owned renewable energy resources, the value of the energy created. For the RECs and S-RECs, a calculated REC or S-REC value for each source and each category of REC;
- E. The number of RECs acquired, sold, transferred, or retired by the utility during the calendar year;
- F. The source of all RECs acquired during the calendar year;
- G. The identification, by source and serial number, of any RECs that have been carried forward to a future calendar year;

- H. An explanation of how any gains or losses from sale or purchase of RECs for the calendar year have been accounted for in any rate adjustment mechanism that was in effect for the electric utility;
- I. For acquisition of electrical energy and/or RECs from a renewable energy resource that is not owned by the electric utility, the following information for each resource that has a rated capacity of ten (10) kW or greater:
 - a. Name, address, and owner of the facility
 - b. An affidavit from the owner of the facility certifying that the energy was derived from an eligible renewable energy technology and that the renewable attributes of the energy have not been used to meet the requirements of any other local or state mandate;
 - c. The renewable energy technology utilized at the facility;
 - d. The dates and amounts of all payments from the electric utility to the owner of the facility; and
 - e. All meter readings used for calculation of the payments referenced in part (IV) of this paragraph;
- J. The total number of customers that applied and received a solar rebate in accordance with section (4) of the Rule;
- K. The total number of customers that were denied a solar rebate and the reason(s) for denial;
- L. The amount of funds expended by the electric utility for solar rebates, including the price and terms of future S-REC contracts associated with the facilities that qualified for the solar rebates;
- M. An affidavit documenting the electric utilities compliance with the RES compliance plan as described in this section during the calendar year. This affidavit will include a description of the amount of over- or under-compliance costs that shall be adjusted in the electric utility's next compliance plan; and
- N. If compliance was not achieved, an explanation why the electric utility fail to meet the RES.

This 2011 Report represents GMO's efforts to achieve the requirements of 4 CSR 240-20.100.

SECTION 2: RES COMPLIANCE REPORT

Rule (7)(A) 1: This annual RES compliance report shall provide the following information for the most recently completed calendar year, as defined by the Rule.

2.1 RULE (7)(A) 1 A:

Total retail electric sales for the utility, as defined by the Rule;

Total GMO (MWh)	MPS (MWh)	SJLP (MWh)
8,194,746	6,047,063	2,147,683

2.2 RULE (7)(A) 1 B:

Total jurisdictional revenue from the total retail electric sales to Missouri customers as measured at the customers' meter;

Total GMO	MPS	SJLP
\$721,662,693	\$555,584,148	\$166,078,545

2.3 RULE (7)(A) 1 C:

Total retail electric sales supplied by renewable energy resources, as defined by section 393.1025(5), RSMo, including the source of the energy;

	Total GMO (MWh)	MPS (MWh)	SJLP (MWh)
Gray County Wind Energy	194,764	129,882	64,882

2.4 RULE (7)(A) 1 D:

The number of RECs and S-RECs created by electrical energy produced by renewable energy resources owned by the electric utility. For the electrical energy produced by these utility-owned renewable energy resources, the value of the energy created. For the RECs and S-RECs, a calculated REC or S-REC value for each source and each category of REC;

GMO does not own any renewable energy resources, so the response to all parts of this question is 0 as reflected in the table below.

Source	Number created by electrical energy produced by renewable energy resources owned by the utility.	Value of Energy Created	Calculated value for each source and each category of REC
	MWh	cents/kWh	\$
MPS	0	0	0
SJLP	0	0	0

2.5 RULE (7)(A) 1 E

The number of RECs required, sold, transferred, or retired by the utility during the calendar year;

GMO utilizes the North American Renewable Registry ("NARR") as recommended by Staff and approved by the Commission for tracking of all RECs.

	Total GMO		MPS		SJLP	
	RECs	S-RECs	RECs	S-RECs	RECs	S-RECs
Required	160,617	3,278	118,522	2,419	42,095	859
Sold	0	0	0	0	0	0
Transferred	0	0	0	0	0	0
Retired	160,617	3,278	118,522	2,419	42,095	859

2.6 RULE (7) (A) 1 F

The source of all RECs acquired during the calendar year;

Please refer to Attachment A of this document for a list of sources for RECs acquired during the calendar year.

2.7 RULE (7)(A) 1 G

The identification, by source and serial number, of any RECs that have been carried forward to a future calendar year;

Please refer to Attachment B of this document for a list of RECs carried forward to a future calendar year by source and serial number.

2.8 RULE (7)(A) 1 H

An explanation of how any gains or losses from sale or purchase of RECs for the calendar year have been accounted for in any rate adjustment mechanism that was in effect for the electric utility;

There were no sales of RECs and any RECs acquired were either utilized for calendar year 2011 compliance or left in GMO's NARR account for future use.

2.9 RULE (7)(A) 1 I

For acquisition of electrical energy and/or RECs from a renewable energy resource that is not owned by the electric utility, the following information for each resource that has a rated capacity of ten (10) kW or greater;

Please refer to Attachment A for a resource list which includes the name, address, owner, and renewable technology used at each resource. Additionally, the party responsible for the registry account (Account Holder Company) and who the RECs were acquired from, wholesale provider or aggregator, as applicable is included in the attachment. Attachment C, which contains HIGHLY CONFIDENTIAL information, contains the meter readings and payments for electrical energy and payments for RECs.

Electrical energy and RECs are acquired through a purchased power agreement from Gray County Wind Energy LLC (GCWE). GCWE designated KCP&L Greater Missouri Operations Company as the North American Renewables Registry Generator Owner's Designation of Responsible Party which represents that the generator owner has not granted similar authority or permission to any other person for use in North American Renewables Registry or any similar registry or tracking system. Under separate agreement, Gray County Wind Energy supported GMO's efforts to certify the facility with the Missouri Department of Natural Resources. Certification was granted November 23, 2011. As designated responsible party, an affidavit is attached, Attachment D, by the KCP&L GMO's Manager – Fuels, Emission & RECs

S-RECs were acquired from a wholesale provider or aggregator. Those S-REC's were registered in the Western Renewable Energy Generation Information System (WREGIS), a system that has the same information and registration requirements as the Commission selected system, North American Renewables Registry (NARR). Purchased S-RECs are transferred from WREGIS to NARR which maintains the integrity and tracking of each S-REC meeting the intent of the Commission's Rule in this instance. The sources of these S-RECs were certified by the Missouri Department of Natural Resources. Certification was granted December 19, 2011.

2.10 RULE (7)(A) 1 J

The total number of customers that applied and received a solar rebate in accordance with section (4) of the Rule;

	Total GMO	MPS	SJLP
Applied	84	57	27
Received	46	36	10

2.11 RULE (7)(A) 1 K

The total number of customers that were denied a solar rebate and the reason(s) for denial;

	Total GMO	MPS	SJLP
Denied	0	0	0
Reason	Not Applicable	Not Applicable	Not Applicable

2.12 RULE (7)(A) 1 L

The amount of funds expended by the electric utility for solar rebates, including the price and terms of future S-REC contracts associated with the facilities that qualified for the solar rebates;

	Total GMO	MPS	SJLP
Solar Rebates	\$1,351,670	\$968,766	\$382,904

On October 31, 2011, GMO filed a joint application with KCPL asking the Commission to grant a variance from the Commission's renewable energy standards Rule to allow both parties to delay filing a standard offer contract for the purchase of solar renewable energy credits beyond the November 1, 2011 submission date. A variance was granted permitting the delay of filing tariff sheets detailing the provisions of a standard offer contract for the purchase of solar renewable energy credits for 2011 compliance until November 1, 2012.

2.13 RULE (7)(A) 1 M

An affidavit documenting the electric utility's compliance with the RES compliance plan as described in this section during the calendar year. This

affidavit will include a description of the amount of over- and under- compliance costs that shall be adjusted in the electric utility's next compliance plan;

On April 15, 2011, GMO filed a Compliance Plan covering the calendar years 2011 – 2013. In accordance with that filing, GMO indicated RECs created by generation at Gray County wind farm, located outside the state of Missouri, would be utilized for compliance. Energy and associated RECs are acquired through a Purchase Power Agreement with Gray County Wind Energy. GMO retired 160,617 vintage 2008 and 2009 RECs in order to meet its 2011 non-solar compliance obligation.

Also in that filing, GMO indicated S-RECs were acquired from a third party, 3Degrees Group. GMO retired 3,278 vintage 2010 S-RECs in order to meet its 2011 solar compliance obligation.

The total costs incurred towards meeting compliance with Missouri's RES for calendar year 2011 is:

Resource	Capital and/or O&M Cost
Solar Rebates	\$1,351,670
S-RECs (for compliance)	\$27,142
NAR Administration	\$46,775

2.14 RULE (7)(A) 1 N

If compliance was not achieved, an explanation why the electric utility failed to meet the RES;

The utility has made every effort to comply and believes it has achieved compliance with Missouri's Renewable Energy Standard for 2011.

As designated by Gray County Wind Energy, LLC, GMO has been authorized to register and report generation for the aforementioned facility. The renewable energy credits listed above are associated with generation for GMO only. The renewable attributes of the energy have not been used to meet the requirements of any other local or state mandate. Energy from this facility is derived from an eligible renewable energy technology as supported by the Missouri Department of Natural Resources certification of the facility.
