# Important Notice

You are a customer of Kansas City Power & Light Company d/b/a KCP&L (“KCP&L”), which has filed a rate increase request with the Missouri Public Service Commission (“Commission”). The Commission has established Case No. ER-2018-0145 for this request. The proposed increase is approximately 1.88%. As requested, the bill of the average residential customer would increase approximately \$3.00 per month. Without resetting KCP&L’s base cost of energy used for its FACs (“Fuel Adjustment Charges”), KCP&L’s proposed request would be an increase of about 0.86%.

KCP&L is asking the Commission to allow it to continue to reflect changes in its fuel and purchased power costs in customer FACs. The FACs base cost of energy gets reset in each general rate case proceeding. KCP&L’s FACs reflect the difference between KCP&L’s actual fuel and purchased power costs to serve customers and the base cost of energy, and are billed or credited to each customer based on that customer’s monthly energy usage. KCP&L is requesting to continue to adjust its FAC rates two times per year, in October and April.

KCP&L believes the proposed rate increase is needed to recover money spent for several customer experience enhancements, including technology and green initiatives. KCP&L is also asking to pass along to customers 100% of the savings resulting from the Tax Cut and Jobs Act.

Additionally, KCP&L Greater Missouri Operations Company d/b/a KCP&L (“GMO”) filed a rate increase request with the Commission, along with a request to continue to bill its customers FACs. GMO’s customers are receiving similar notices, including the below schedule of public hearings.

The Commission has scheduled local public hearings where members of the public may testify and offer documents to the Commission regarding KCP&L’s request. The dates and locations of the hearings follow:
