Staff's Response to DR1 from LCSW:

To the best of Staff's knowledge, the following utilities, regulated and unregulated, have some level of AMR technology in use or in the process of installation:

Lincoln County
Tri-States
MAWC
Raytown
Callaway PWD 1
Callaway PWD 2
City of Hermann
City of Wentzville
PWD No. 9 of Cass County - Harrisonville
Monroe County PWSD #2
Marion County
Savannah
PWSD #1 of Franklin County in Krakow
Camden County PWSD #1

Amy - Please treat the following as a data request for the Staff of the Commission served on behalf of Lincoln County Sewer & Water, LLC in the above-referenced cases. We are primarily interested in what is known by water and sewer department personnel. I understand some of those folks are out of town. Feel free to delay your response until you have the opportunity to inquire of those persons upon their return.

DR 1 - Please identify any Missouri water systems (regulated or unregulated), of which you are aware, that utilize automated meter reading (AMR) technology or radio read meter technology?
