Secretary
Missouri Public Service Commission
Governor Office Building
200 Madison Street
Jefferson City, MO 65101

Dear Secretary:

Enclosed herewith for filing with the Missouri Public Service Commission is a revised tariff sheet, P.S.C. MO. No. 5 Consolidated, Two Hundred and Eleventh Revised Sheet No. 29, which is applicable to both divisions of Laclede Gas Company ("Company"). This revised tariff sheet, which has an issue date of October 31, 2007, and an effective date of November 16, 2007, reflects the scheduled November Purchased Gas Adjustment ("PGA") of the Company as provided by Sheet Nos. 15 through 28-i of the Company's tariff. Such revised PGA rates, which will be made effective on a pro-rata basis, include changes to both the Current Purchased Gas Adjustment ("CPGA") and the Actual Cost Adjustment ("ACA") factors for natural gas and subdivision propane customers.

As a result of this filing, the Company's underlying charge for gas for firm sales customers will decrease from \$.90497 per therm to \$.85453 per therm primarily due to the decrease in the Company's ACA factor.

In accordance with the Stipulation and Agreement ("S&A") in the Company's recently concluded general rate case proceeding, Case No. GR-2007-0208, the ACA components of the new PGA factors reflect, as a one-time credit, over \$7,000,000 of off-system sales margins and capacity release revenues resulting from the sharing mechanism set forth in the settlement of the Company's 2005 general rate case proceeding. In addition, as provided by the S&A, the CPGA component of the new PGA rates has been reduced to reflect a \$6,000,000 annual customer share of off-system sales margins and capacity release revenues estimated to be realized by the Company in the future.

Also, in the settlement of Case No. GR-2007-0208 the Company agreed to the request by the Commission Staff that any monies owed to the Company's Sullivan, Missouri customers in connection with the last ACA reconciliation performed for these customers under the former Fidelity Natural Gas Company tariff, as adopted by the Company, would be distributed only to customers in the Sullivan area. Thus, the Company will be distributing the ACA monies owed to such customers in the form of bill credits applied to Sullivan customers' November bills. As provided by the S&A in Case No. GR-2007-0208, the Company's Sullivan customers are now served under the same tariff that applies to all other Laclede customers.

The natural gas PGA rates provided herein will decrease the natural gas bill of the typical residential heating customer by approximately 4.2% compared to existing rates. Compared to the same time last year, the rate paid by a typical residential customer is down by approximately 2.6%.

Sincerely,

Kenneth J. Neises
Executive Vice President
Energy & Administrative Services
