Issue Date: December 7, 2010

Effective Date: December 7, 2010

On November 22, 2010 Atmos Energy Corporation filed an application as described in the above caption. With its application, the company filed a proposed revised tariff sheet with an effective date of December 22. The Commission must therefore suspend the tariff to allow sufficient time for the Staff of the Commission to review Atmos' filing.

The Commission is required¹ to act on the petition within 120 days. Consequently, any order the Commission issues must be effective no later than March 22, 2011. Although the Commission may decide this matter sooner, the Commission will suspend the company's tariff until March 22.

The Commission is also required² to publish notice of the application. To that end, the Commission will require that notice be sent to those that may be interested. In the order paragraphs below, the Commission will set a deadline by which applications to intervene shall be filed.

Finally, the Commission issued an order on December 6 directing the Staff of the Commission to file a pleading. The order was issued in error. The filing of that pleading is unnecessary and Staff should ignore the order.
