**RENEWABLE ENERGY STANDARD COMPLIANCE REPORT  
AND REQUEST FOR WAIVER**

COME NOW Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company ("Company"), and provides its Renewable Energy Standard ("RES") Compliance Report. The Company also requests a waiver of a portion of the Missouri Public Service Commission's ("Commission") RES Rules, found at 4 CSR 240-20.100(8)(A)1.I.(V), and states as follows:

1. As part of its efforts to comply with Missouri's RES law, the Company is purchasing Renewable Energy Credits ("RECs") from various vendors.
2. For RECs purchased from a renewable energy resource not owned by the Company, 4 CSR 240-20.100(8)(A)1.I.(V) requires all meter readings used for calculation of the payments from the electric utility to the owner of the facility.
3. The Company requests that the Commission grant it a limited waiver of this requirement because the meter reading information is not provided by the vendors that the Company purchases RECs from. As it did last year, the Company is providing the invoice information requested by Staff.
4. Good cause exists for the granting of this waiver, as the meter readings are not available.

5. The Company applied for a similar waiver in 2016 (File Nos. EO-2017-0269 and EO-2017-0270) and was granted an *Order Regarding Renewable Energy Standard Compliance Report* on June 28, 2017.

WHEREFORE, the Company requests the Missouri Public Service Commission grant it a waiver of the meter readings requirement 4 CSR 240-20.100(8)(A)1.I.(V).

Respectfully submitted,

/s/ Roger W. Steiner
