In The Matter of CenturyTel of Missouri,)
LLC's Request for Competitive) Case No. IO-2006-0316
Classification Pursuant to Section)
392.245.5, RSMo. (2005).)

Missouri Public
Service Commission

**CENTURYTEL OF MISSOURI, LLC'S
RESPONSE TO ORDER DIRECTING FILING**

COMES NOW CenturyTel of Missouri, LLC ("CenturyTel"), pursuant to the Commission's Order Directing Filing issued in this matter on February 3, 2006, and respectfully submits a substitute Exhibit A to its Application previously filed herein.

1. The Commission's Order Directing Filing states that portions of Exhibit A, filed in support of CenturyTel's application, are completely illegible and, in order to be considered, CenturyTel shall file legible copies of Exhibit A no later than February 6, 2006.

2. Exhibit A to the Application addresses the issue of "Wireless Carriers Operating in CenturyTel Exchanges," and portions of that Exhibit include scanned copies of electronic web pages of various wireless carriers depicting coverage areas in Missouri, including the exchanges at issue in this proceeding. CenturyTel is filing hard copies of the printed pages of those same web sites herewith, in the hopes that such pages are more legible. Electronic addresses of each page submitted are reflected at the bottom of the attached pages.

WHEREFORE, CenturyTel respectfully submits its Revised Exhibit A in response to the Commission's Order Directing Filing.

Respectfully submitted,

Larry W. Dority, Esq.

Your phone's display does not indicate the rate you will be charged. Please review your coverage map for areas included in and out of plan. Map depicts approximation of outdoor coverage. Map may include areas served by unaffiliated carriers and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics, and coverage may be affected by such things as terrain, weather, foliage, buildings and other construction, signal strength, customer equipment and other factors. Cingular does not guarantee coverage. Charges will be based on location of the site receiving and transmitting the call, not the location of the subscriber. Future Coverage, if depicted above, is based on current planning assumptions but is subject to change and may not be relied upon.

This map predicts and approximates our wireless coverage area outdoors, which may vary from market to market and may change without notice. It may include locations with limited or no coverage. Our maps do not guarantee service availability. Even within a coverage area, there are several factors, such as: network changes, traffic volume, service outages, technical limitations, signal strength, your equipment, terrain, structures, foliage, weather, and other conditions that may interfere with actual service, quality, and availability, including the ability to make, receive, and maintain calls. Multi-band (850/1900 MHz) GSM/GPRS handset required for access to 850 Roaming Coverage. Ask a T-Mobile sales representative or visit www.t-mobile.com/morecoverage for more information regarding handset requirements and T-Mobile 850 MHz coverage. 850 MHz roaming is offered through our roaming partners; some features (e.g. picture messaging, mobile to mobile) may not be available while roaming.
