REBUTTAL TESTIMONY

OF

JOHN S. RILEY

Submitted on Behalf of the Office of the Public Counsel

SPIRE MISSOURI, INC.

CASE NO. GR-2021-0108

June 17, 2021

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

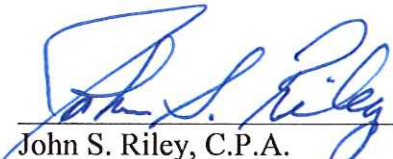

In the Matter of Spire Missouri Inc.'s)
d/b/a Spire Request for Authority to)
Implement a General Rate Increase for)
Natural Gas Service Provided in the)
Company's Missouri Service Areas)
Case No. GR-2021-0108

AFFIDAVIT OF JOHN S. RILEY

STATE OF MISSOURI)
) ss
COUNTY OF COLE)

John S. Riley, of lawful age and being first duly sworn, deposes and states:

1. My name is John S. Riley. I am a Senior Utility Regulatory Auditor for the Office of the Public Counsel.
2. Attached hereto and made a part hereof for all purposes is my rebuttal testimony.
3. I hereby swear and affirm that my statements contained in the attached testimony are true and correct to the best of my knowledge and belief.

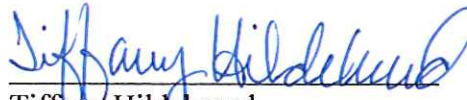

John S. Riley, C.P.A.
Senior Utility Regulatory Auditor

Subscribed and sworn to me this 17th day of June 2021.

TIFFANY HILDEBRAND
My Commission Expires
August 8, 2023
Cole County
Commission #15637121

Tiffany Hildebrand
Notary Public

My Commission expires August 8, 2023.

Gross Receipt Tax “(GRT)” Refund	6

REBUTTAL TESTIMONY

OF

JOHN S. RILEY

SPIRE MISSOURI INC.

CASE NO. GR-2021-0108

1 **Q. Are you the same John S. Riley who prepared and prefiled direct testimony in this case**
2 **on behalf of the Office of the Public Counsel?**

3 A. Yes.

4 **Q. Why are you testifying in rebuttal?**

5 A. To correct three calculations in Staff’s revenue requirement. First, Staff has erroneously
6 included a Net Operating Loss regulatory asset “(NOL)” in rate base. Second, it has also failed
7 to recognize that Spire has not remitted income taxes in several years and has overstated the
8 income tax offset as it relates to Cash Working Capital “(CWC)” and rate base. Third, as I
9 pointed out in direct, Spire has over-collected gross receipts tax so Staff’s adjustment for gross
10 receipts collections will need to be corrected.

11 **NOL EXCLUSION FROM RATE BASE**

12 **Q. What NOL amounts has Staff included in its rate base calculations?**

13 A. Staff has developed separate revenue requirements for Spire East and West. Staff has
14 included \$30,868,412 of NOL deferred tax assets as an increase to the East rate base
15 calculations and \$18,675,943 as an NOL deferred tax asset increase to the rate base of West.

1 This is a combined total of a \$49,544,355 that Staff has included as an increase to Spire’s rate
2 base calculations.

3 **Q. Why does Staff include the NOL in rate base calculations?**

4 A. Historically, Staff has held a belief that an NOL denies a regulated company from taking
5 advantage of accumulated deferred income tax “(ADIT)” and therefore, must be included in
6 rate base calculations so as to reduce the ADIT balance. The following quote from the *Report*
7 *and Order* of Case No. ER-2014-0258 sums up the argument well:

8 “However, when bonus depreciation and other tax deductions grow so
9 large as to push the company’s taxable income into the negative, the
10 available tax deduction cannot offset any liability and no “free” cash
11 is generated. In that circumstance, the company must record an
12 offsetting deferred tax asset for Net Operating Loss Carryforward
13 (NOLC). The NOLC offsets the ADIT, which would decrease the
14 company’s rate base, and therefore, the NOLC has the effect of
15 increasing the rate base.”¹

16 The logic of this argument is flawed, however, when considering regulated utilities. The
17 Commission’s belief hangs on the premise that “**no ‘free’ cash is generated**” by the ADIT
18 because of the NOL, but there *is* free cash generated due to the inclusion of income taxes in
19 the revenue requirement that are not being paid to the taxing authorities (ironically due to the
20 existence of the same NOL). Income tax expense is included in Spire’s revenue requirement
21 for every year and is not being spent on income taxes. That is free cash in my book.

¹ ER-2014-0258, Report and Order, page 18, lines 14-19.

1 **Q. If funds are included in the revenue requirement but not being expended, shouldn't that**
2 **money be eliminated from the calculations?**

3 A. In the case of income tax expense, no. The IRS requires that income tax expense be included
4 in the company's cost of service.²

5 **Q. You mentioned regulated companies. Is there a difference between regulated and**
6 **nonregulated companies?**

7 A. Yes, a nonregulated company truly is denied the use of free money due to the fact that it does
8 not have income tax built into its revenues. When a nonregulated company cannot offset any
9 more tax liability, then it is denied the use of free money (ADIT) until it can eliminate its
10 NOL. That is not the case with regulated utilities due to the unspent income tax expense built
11 into rates. The NOL allows the regulated utility to keep the tax expense money and spend it
12 as it wishes, thus generating a "new" source of free money.

13 **Q. What can Staff do with this issue in the current case?**

14 A. Staff should make the change I recommend in this testimony and present it to the Commission
15 instead of waiting for the Commission to give them direction. The argument that there is
16 "free" money to offset the NOL is unmistakable, but this issue of unspent income tax expense
17 has not reached the Commission in a general rate case hearing. Staff should get ahead of the
18 issue in this case by making an adjustment that directly acknowledges the "free" money
19 generated for Spire due to the inclusion of income tax expense in its revenue requirement that
20 is not being paid to the proper taxing authority.

² IRS normalization rules, 168(i)(9).

1 **INCOME TAX OFFSET CALCULATIONS WITHIN CWC**

2 **Q. What adjustment are you proposing to the income tax calculations within the Staff's**
3 **CWC?**

4 A. I am proposing that the Commission adopt a 365 expense lag when calculating the net lag for
5 federal and state income tax offsets.

6 **Q. Do you know if Staff developed its own expense lag for its income tax CWC calculations?**

7 A. It appears that Staff produced separate revenue lags for Spire West and East but adopted
8 Spire's lead/lag calculations concerning federal and state income tax payments. The expense
9 lag is 38 days, which is identical to Spire's. This is a clear error in the Staff's CWC due to
10 the fact that the Company isn't making income tax payments.

11 **Q. Why is this a "clear" error?**

12 A. Staff included an NOL in rate base. NOL recognition is indisputable proof that Staff
13 recognizes that Spire will not pay income tax. Obviously, if one includes proof in the
14 calculations that income taxes are not being paid then the lead/lag for income tax payments
15 would need to be adjusted. Specifically, the expense lag would be adjusted to reflect
16 nonpayment.

1 **Q. What has Staff included in its CWC for income tax payments?**

2 A. Staff has separated the income tax amounts for Spire East and West. The federal tax offset
3 for East is \$16,034,094 creating a positive adjustment to CWC of \$564,480. The West
4 calculations are \$18,000,696 in tax and a positive adjustment of \$486,271.³

5 State income tax payments are \$2,847,324 for East with a positive adjustment of \$100,240
6 and West totals \$3,196,552 and a positive adjustment of \$86,352.

7 **Q. What amounts do you require in your CWC income tax offsets?**

8 A. As shown on JSR-R-1, Spire East federal and state income tax offset is negative \$16,250,952.
9 Spire West requires a negative \$18,417,795. This will reduce Spire East rate base by
10 \$16,915,672 and West by \$18,990,418 for a Company total rate base reductions from Staff's
11 position of \$34,668,747.

12 **Q. Could you summarize where Staff has miscalculated income tax payments in the CWC?**

13 A. It is clear that both Spire and Staff do not expect income tax payments to be made to any
14 taxing authorities in the near future due to the recognition of an NOL in the case. A lack of
15 payment should be reflected in the expense lag. That lag should reflect the expected payment
16 date for income tax expenses. No tax payments in the test year or true-up justifies a 365 day
17 expense lag. An expense lag of a year recognizes the revenue coming in but never being paid
18 out as an expense.

³ Staff employed a 50.85 revenue lag for East and a 47.86 lag for West. The expense lags are the same at 38.

1 **GROSS RECEIPT TAX “(GRT)” REFUND**

2 **Q. In general, what is the nature of the adjustments to Staff’s revenue requirement**
3 **concerning gross receipts tax?**

4 A. The first adjustment would be that Spire’s court ordered refund did not include a reduction of
5 GRT on the customer’s bill. The second contention would be that Spire has been overcharging
6 GRT on each and every customer.

7 **Q. Could you please provide some background information on your first adjustment?**

8 A. As I pointed out in direct testimony, Spire administered the refund below the tax calculation
9 line on customer bills. GRT was not reduced on the bills to reflect the refund.

10 **Q. What is the definition of “gross receipts”?**

11 A. The St. Louis County ordinance 502.150(2), defines gross receipts as:

12 "Gross receipts" means the aggregate amount of all sales and charges of the
13 commodities or services described in (1) made by a public utility in the
14 unincorporated areas of St. Louis County during any period less discounts,
15 credits, **refunds**, sales taxes and uncollectible accounts actually charged off
16 during the period.(Emphasis added)

17 The definition in chapter 144 of the Mo. Statute

18 (4) "**Gross receipts**", except as provided in section 144.012, means
19 **the total amount of the sale price of the sales at retail** including
20 any services other than charges incident to the extension of credit
21 that are a part of such sales made by the businesses herein referred
22 to, capable of being valued in money, whether received in money or
23 otherwise; except that, the term gross receipts shall not include the
24 sale price of property returned by customers when the full sale price
25 thereof is refunded either in cash or by credit. **In determining any**

1 **tax due under sections** 144.010 to 144.525 **on the gross receipts,**
2 charges incident to the extension of credit shall be specifically
3 exempted. **For the purposes of sections** 144.010 to 144.525 **the**
4 **total amount of the sale price above mentioned shall be deemed**
5 **to be the amount received.** It shall also include the lease or rental
6 consideration where the right to continuous possession or use of any
7 article of tangible personal property is granted under a lease or
8 contract and such transfer of possession would be taxable if outright
9 sale were made and, in such cases, the same shall be taxable as if
10 outright sale were made and considered as a sale of such article, and
11 the tax shall be computed and paid by the lessee upon the rentals
12 paid. The term gross receipts shall not include usual and customary
13 delivery charges that are stated separately from the sale price; (Key
14 points have been highlighted)

15 **Q. How is this a revenue requirement adjustment?**

16 A. GRT is a tax on the utility, not on the customer. This is different than state sales tax where
17 the transaction is taxed, the customer is responsible for the payment of tax, and the business
18 forwards the money to the Department of Revenue. Spire is allowed to charge the customer
19 for the Gross Receipts tax it is responsible for and forward the proceeds to the taxing authority.
20 Normally, Staff excludes the amount from revenue requirement by merely pulling the GRT
21 total out of the revenue requirement recommendation it develops in the rate case.⁴ In the
22 instant case, the refund in question was inserted below the GRT calculation line where a
23 reduction of the tax to the customer does not get calculated. However, the total taxable
24 amount that the GRT would be calculated on was reduced by the refund amount, and the
25 Company paid less gross receipts tax than it otherwise would have needed to, thereby enjoying

⁴ Accounting Schedule 9, Account 408 Adjustment E-112 to remove \$63,508,198 of Gross Receipts Tax from the
Income Statement

1 a credit on its tax submission.⁵ This becomes a revenue adjustment because Spire benefitted
2 from the refund by the amount of the tax that should have reduced the customer's bill.

3 **Q. Have you established what the GRT would be on the \$15 million refund?**

4 A. Not precisely. The taxing jurisdictions have tax rates established by local ordinances. The
5 range of rates runs from 3% to 15%. Each jurisdiction will need to be reviewed separately
6 and combined. I will try to apply a weighted average GRT rate from all the taxing
7 jurisdictions to the \$15 million to establish a very close approximation. I haven't completed
8 that transition yet, but I expect the tax to be somewhere in the vicinity of \$750-\$825 thousand.

9 **Q. You presented your case for Spire overcharging gross receipts tax in your direct
10 testimony. Have you been able to quantify the amount of the overcharge?**

11 A. Yes. JSR-R-2 has readjusted all the gross receipt tax calculations for a 12 month period.
12 Spire overcharged its customers by an aggregate \$3,986,643 in that period⁶. Extrapolate
13 these findings for a three year period would cause a refund of approximately \$11,959,929
14 plus carrying costs.

15 **Q. Does this conclude your rebuttal testimony?**

16 A. Yes it does.

⁵ Please refer to the St. Louis County definition of gross receipts where I highlighted the word "refunds" The \$15 million refund reduced the gross receipts amount that Spire calculated tax but did not reduce the tax charged to the customer.

⁶ The Excel Spreadsheet is a Spire Direct support workpaper that I added an adjustment column (S) to extract the correct tax amount. The column was totaled, missing jurisdictions amounts were calculated and added. The difference is at the bottom of Column (S)
