Secretary  
Missouri Public Service Commission  
Governor Office Building  
200 Madison Street  
Jefferson City, MO 65101

Dear Secretary:

Enclosed herewith for filing with the Missouri Public Service Commission is a revised tariff sheet, P.S.C. MO. No. 5 Consolidated, Two Hundred and Twelfth Revised Sheet No. 29, which is applicable to both divisions of Laclede Gas Company ("Company"). This revised tariff sheet, which has an issue date of June 5, 2008 and an effective date of June 19, 2008, is filed in accordance with Sheet Nos. 15 through 28-i of the Company's Purchased Gas Adjustment ("PGA") tariff for natural gas customers. Such sheet also reflects a revised Purchased L.P. Gas Adjustment for the Company's subdivision propane customers.

As a result of this filing, the Company's underlying charge for gas for firm sales customers will increase from \$.85453 per therm to \$1.06994 per therm due to the sharp increase in wholesale natural gas prices that has occurred since the Company established the PGA factors that became effective in November 2007. While these wholesale natural gas price increases are affecting local distribution companies and gas consumers nationwide, the Company's use of natural gas financial hedging instruments and its purchase of some lower cost Midcontinent natural gas supplies have reduced the impact of these higher prices on the rates paid by the Company's customers.

As provided by the Company's tariff, the revised natural gas Current PGA factors do not apply to the Company's Large Volume Transportation and Sales Service ("LVTSS") and Vehicular Fuel ("VF") customers. Unlike the Current PGA for all other customers, the Current PGA for LVTSS and VF customers is revised on a monthly basis by means of the notification procedure specifically provided by Section A.5. of the Company's PGA clause.

The natural gas PGA rates provided herein will increase the average monthly natural gas bill of the typical residential heating customer by an average of \$4.38 per month over the five-month period during which the new rates will be in effect. Such rates will likely remain in effect until the Company's mandatory PGA change that becomes effective in November 2008.

The new L.P. Current PGA factor reflects the average price of L.P. gas purchased by the Company for delivery in April 2008.

Sincerely,

Kenneth J. Neises  
Executive Vice President  
Energy & Administrative Services
