File No. HT-2017-0274
Tariff Tracking No. JH-2017-0201

STAFF RECOMMENDATION TO APPROVE TARIFF SHEET

COMES NOW the Staff of the Public Service Commission of Missouri and, for its Staff Recommendation to Approve Tariff Sheet, states:

1. On April 17, 2017, KCP&L Greater Missouri Operations Company (“GMO”) filed with the Commission one tariff sheet, 32nd Revised Sheet No. 6.10 bearing an effective date of June 1, 2017, to add the quarterly cost adjustment (“QCA”) for steam service customers for the first quarter of calendar year 2017.

2. GMO’s filing includes the proposed tariff sheet and supporting workpapers consisting of electronic worksheets showing its calculation of the QCA. The proposed tariff sheet reflects a customer credit per million British Thermal Units (“BTU”) of \$(1.5898)¹ as compared to a customer credit of \$(1.6587) per million BTU reflected on the previous 31st Revised Sheet No. 6.10. The change resulting from this filing causes a reduction of the customer credit in the QCA Rider rate and is the result of the net effect of:

- 1) a \$230,216 increase in the quarterly adjusted fuel costs when compared to the same quarter last year, and
- 2) the decrease of the Reconciliation Rate (“R Factor”) component of (\$44,646), when compared to the same quarter last year.

¹ A “(bracketed amount)” represents a credit to the customer. The credit is also sometimes referred to as a “negative charge” as reflected by the brackets. In this instance, the customer will receive a credit in the amount of \$1.6587 per million BTU.

3. For a steam service customer, this would mean an increase of approximately \$68.90 for every thousand MMBTUs used. As more fully explained in its Memorandum, attached hereto as Appendix A, the Staff has reviewed the data and calculations provided by GMO related to its proposed tariff sheet and has determined that it is correct and satisfies the standards set forth in GMO's Tariff Sheet Nos. 6.6 through 6.10.

4. Staff has verified that GMO is not delinquent on any assessment and has filed its 2016 Annual Report. Additionally, Staff is not aware of any other matter pending before the Commission that affects or is affected by this tariff filing. Staff's recommendation for approval of the QCA change in this case is solely based on the accuracy of GMO's calculations and is not indicative of the prudence of the fuel costs included in the QCA.

WHEREFORE, for the reasons discussed above and in Staff's Memorandum, the Staff recommends the Commission either issue an order approving the proposed tariff sheet as filed by GMO on April 17, 2017, to go into effect June 1, 2017, or to allow it to go into effect by operation of law that same date:

P.S.C. MO. No. 1

32nd Revised Sheet No. 6.10 Canceling 31st Revised Sheet No. 6.10

Respectfully Submitted,

/s/ Mark Johnson

SUBJECT: Staff Recommendation to Approve the Tariff Sheet Filed to Add the
Quarterly Cost Adjustment for the First Quarter of 2017 to the Quarterly Cost
Adjustment Rider – Steam of KCP&L Greater Missouri Operations Company to
go into effect on June 1, 2017, or to go into effect by operation of law that same
date.

DATE: May 9, 2017

On April 17, 2017, KCP&L Greater Missouri Operations Company (“GMO”) filed with the Commission one (1) tariff sheet for steam service to add the quarterly cost adjustment (“QCA”) for the first quarter of 2017. The adjustment is required by GMO’s Quarterly Cost Adjustment Rider, which the Commission approved in Case No. HR-2005-0450, and modified in Case Nos. HR-2009-0092 and HR-2010-0028.

GMO’s filing included the proposed tariff sheet and supporting workpapers consisting of electronic worksheets showing GMO’s calculation of the QCA for the first quarter of 2017.

On April 18, 2017, the Commission directed Staff to file a recommendation on the pending tariff no later than May 9, 2017.

The procedure for the calculation of the QCA for steam service sales is set out in GMO’s Tariff Sheet Nos. 6.6 through 6.10, which are titled “Quarterly Cost Adjustment Rider – Steam.” The QCA calculation components as described in Tariff Sheet Nos. 6.6 and 6.7 include the Current Quarterly Cost Adjustment (“CQCA”), the Reconciliation Rate o(“R factor”) plus any applicable reconciling adjustments. Additionally, Tariff Sheet 6.8 includes Coal Performance Standards.

The QCA Rider for this 32nd revision of Tariff Sheet No. 6.10 reflects a negative charge per million British Thermal Units (“BTU”) of (\$1.5898) as compared to a negative charge per million BTU of (\$1.6587) that was reflected on the previous revision of Tariff Sheet No. 6.10. For a steam service customer, this would mean an increase of approximately \$68.90 for every thousand MMBTUs used. The QCA Rider negative charge is a reduction to customer bills’ to reflect the customer share of the variation in fuel cost for the most recent quarter. The QCA Rider rate reflects an increase of \$230,216 in the quarterly adjusted fuel costs when compared to the same quarter last year. The R factor component reflects a decrease of (\$44,646) when compared to the same quarter last year.

Staff reviewed the data and mathematical calculations GMO provided in its worksheets and found GMO’s calculations related to the filed tariff sheet to be correct, and that the calculations

satisfy the standards set forth in GMO's Tariff Sheet Nos. 6.6 through 6.10. The calculations are also consistent with previous GMO QCA filings.

Staff Recommendation

Staff has reviewed the filed tariff sheet and recommends approval of the following tariff sheet to go into effect for service on and after June 1, 2017, the requested effective date:

P.S.C. MO. No. 1

32nd Revised Sheet No. 6.10 Canceling 31st Revised Sheet No. 6.10

Staff has verified that GMO is not delinquent on any assessment and has filed its Annual Report. GMO is current on its submission of its Surveillance Monitoring reports as required in 4 CSR 240-20.090(10) and its monthly reports as required by 4 CSR 240-3.161(5). Staff is not aware of any other matter pending before the Commission that affects or is affected by this tariff filing. Staff's recommendation for approval of the QCA change in this case is solely based on the accuracy of GMO's calculations, R factor adjustments, and an adjustment for Coal Performance Standards outlined above and is not indicative of the prudence of the fuel costs included in the QCA.
