

Exhibit No. 9
Case No(s) GT-2003-0032
Date 4-15-03 Rptr TU

0048SGA03.02

SENATE AMENDMENT NO. 4

Offered by Goode of 13th
Amend SCS/SD Bill No. 265290, Page 1, Section A, Line 3

2 by inserting immediately after said line the following:

3 "393.310. 1. This section shall only apply to gas
4 corporations as defined in section 386.020, RSMo. This section
5 shall not affect any existing laws and shall only apply to the
6 program established pursuant to this section.

7 2. As used in this section, the following terms mean:

8 (1) "Aggregate", the combination of natural gas supply and
9 transportation services, including storage, requirements of
10 eligible school entities served through a Missouri gas
11 corporation's delivery system;

12 (2) "Commission", the Missouri public service commission;
13 and

14 (3) "Eligible school entity" shall include any
15 seven-director, urban or metropolitan school district as defined
16 pursuant to section 160.011, RSMo, and shall also include, one
17 year after July 11, 2002, and thereafter, any school for
18 elementary or secondary education situated in this state, whether
19 a charter, private, or parochial school or school district.

20 3. Each Missouri gas corporation shall file with the
21 commission, by August 1, 2002, a set of experimental tariffs
22 applicable the first year to public school districts and

4/7/03
ADOPTED

1 applicable to all school districts, whether charter, private,
2 public, or parochial, thereafter.

3 4. The tariffs required pursuant to subsection 3 of this

4 section shall, at a minimum:

5 (1) Provide for the aggregate purchasing of natural gas
6 supplies and pipeline transportation services on behalf of
7 eligible school entities in accordance with aggregate purchasing
8 contracts negotiated by and through a not-for-profit school
9 association;

10 (2) Provide for the resale of such natural gas supplies,
11 including related transportation service costs, to the eligible
12 school entities at the gas corporation's cost of purchasing of
13 such gas supplies and transportation, plus all applicable
14 distribution costs, plus an aggregation and balancing fee to be
15 determined by the commission, not to exceed four-tenths of one
16 cent per therm delivered during the first year; and

17 (3) Not require telemetry or special metering, except for
18 individual school meters over one hundred thousand therms
19 annually.

20 5. The commission may suspend the tariff as required
21 pursuant to subsection 3 of this section for a period ending no
22 later than November 1, 2002, and shall approve such tariffs upon
23 finding that implementation of the aggregation program set forth
24 in such tariffs will not have any negative financial impact on
25 the gas corporation, its other customers or local taxing
26 authorities, and that the aggregation charge is sufficient to
27 generate revenue at least equal to all incremental costs caused
28 by the experimental aggregation program. Except as may be
29 mutually agreed by the gas corporation and eligible school

1 entities and approved by the commission, such tariffs shall not
2 require eligible school entities to be responsible for pipeline
3 capacity charges for longer than is required by the gas
4 corporation's tariff for large industrial or commercial
5 customers.

6 6. The commission shall treat the gas corporation's
7 pipeline capacity costs for associated eligible school entities
8 in the same manner as for large industrial or commercial
9 customers, which shall not be considered a negative financial
10 impact on the gas corporation, its other customers, or local
11 taxing authorities, and the commission may adopt by order such
12 other procedures not inconsistent with this section which the
13 commission determines are reasonable or necessary to administer
14 the experimental program.

15 7. This section shall terminate June 30, 2005."; and
16 Further amend the title and enacting clause accordingly.

17
