ABOUT BSC

BSC Home >> About BSC

Bismarck State College, an innovative community college, offers high quality education, workforce training, and enrichment programs reaching local and global communities.

Bismarck State College provides these programs:

Transfer: First and second year of studies leading to a bachelor's degree. Students earn an associate in arts degree or an associate in science degree.

Technical: Nearly 40 programs leading to a program certificate, program diploma, or associate in applied science degree.

Online Programs and Courses: Sixteen programs leading to a certificate of completion, program certificate, or associate degree; many general education courses. Distance learning is also provided through the N.D. Interactive Video Network and Interactive Television.

Online Bachelor of Applied Science: The BAS in energy management, designed for those seeking supervisory and management positions in the energy industry.

Continuing Education, Training & Innovation: CETI extends the resources of Bismarck State College by providing excellent service for life-long learning and training opportunities through quality, needs-based educational programs for community and professional development, economic growth and personal enrichment.

Bachelor's Degree and Graduate Programs: Nearly 20 bachelor's degree and several graduate programs are offered on campus in cooperation with other North Dakota University System institutions.
