RE: Case No. GR-2014-????, Missouri Gas Energy

Attached for filing on behalf of Missouri Gas Energy is an electronic version of P.S.C. MO. No. 6, First Revised Sheet No. 24.3, canceling Original Sheet No. 24.3. This tariff sheet bears an issue date of April 30, 2014, and a proposed effective date of May 15, 2014.

By this filing, MGE proposes to make an adjustment to the Purchased Gas Adjustment (PGA) Rate as permitted under the provisions of Sheet No. 15 of MGE's tariff. MGE is proposing to adjust the Current Cost of Gas Factor (C.C.G.).

The proposed PGA Rate of \$0.62318 reflects an increase of \$0.06356 per Ccf over the PGA Rate currently in effect of \$0.55962. The change in the PGA Rate reflects an increase in the C.C.G. Factor of \$0.03856 per Ccf and a filing factor adjustment (FAF) of \$0.025 per Ccf. The FAF is designed to recover from sales customers a portion of the under collection of gas the Company has realized as of this date. The increase is primarily attributable to increases in the cost of transportation services charged by MGE's primary pipeline supplier as well as increases in the wholesale price of gas.

The proposed PGA rates will increase the average monthly natural gas bill of the typical residential customer for the period May through October 2014 by approximately \$8. For the period as a whole such rates will increase the bill of a typical residential customer by 3.4% compared to existing rates.

Workpapers supporting the calculations performed in developing the proposed changes have been provided this date under a separate cover letter to the Commission's Staff and The Office of the Public Counsel.
