v.) File No. WC-2021- _____
)
CARL RICHARD MILLS D/B/A)
)
Respondents,)

**FORMAL COMPLAINT
AND MOTION TO CONSOLIDATE**

COMES NOW Complainant, J. Derald Morgan, by and through counsel, Karl Finkenbinder, and for its formal complaint against Respondent Carl R. Mills, a regulated water utility service provider, regarding violations of a Commission Order and request for the Commission to sanction said utility provider pursuant to Section 386.570, RSMo., and in support thereof respectfully states the following:

1. Complainant Derald Morgan resides at 108 Carriage Oaks Dr., Reeds Spring, MO 65737.
2. The Respondent water utility service is Carl R. Mills (“Respondent”), and located at Carl R. Mills, 209 Falling Leaf Court, Reeds Spring, MO 65737.
3. Respondent operates a public utility under the jurisdiction of the Missouri Public Service Commission, pursuant to a certificate of convenience and necessity issued in WA-2018-0370 (“Order”) to provide water utility service to a small subdivision located in Stone County, Missouri. A true and accurate copy of the Commission’s *Report and Order* in WA-2018-0370 is attached hereto and marked **Exhibit 1**.

4. During the proceedings in WA-2018-0370, Respondent represented to the Commission that it intended to retain the services of a water utility service provider, Ozark Clean Water Company, to perform operations and management of the water utility system. A true and accurate copy of the surrebuttal testimony of Carl Mills is attached hereto and marked **Exhibit 2**.

5. The flat rate adopted by the Commission in WA-2018-0370 of \$289.68 was “premised on Mills contracting with a third party operator for management of the water system.” Ex. 1, Pg. 13.

6. The Commission’s Order required Respondent to notify the Commission within one week of termination of any contract with Ozark Clean Water, and initiate a rate proceeding within two months of any termination of the contract with Ozark Clean Water. Ex. 1, Pg. 15 ¶¶ 1-m.

7. Upon information and belief, Respondent failed to make payment upon invoices issued by Ozark Clean Water, and Carl Mills and Ozark Clean Water ceased their business relationship in June 2019. *See Affidavit of Derald Morgan, **Exhibit 3***.

8. Respondent was obligated to notify the Commission of the termination of Ozark Clean Water company by November 22, 2019.

9. Respondent failed to promptly notify the Commission of the termination of Ozark Clean Water in accordance with the terms of Paragraph l of its Order.

10. Respondent failed to initiate a rate case within two months of the termination of the business relationship Ozark Clean Water in accordance with the term of Paragraph m of its Order.

11. Respondent was obligated to notify the Commission of the termination of Ozark Clean Water company by January 8, 2020.

12. Section 386.570, RSMo., authorizes the Commission to issue penalties of at least \$100 to \$2,000 per day for each violation of an order; being at least \$73,100 and not more than \$1,462,000.

13. Complainant requests Commission investigate the circumstances and determine the date of termination of business activities between Respondent and Ozark Clean Water, and assess penalties in the amount authorized by statute against Respondent for violations of its Order, consider Respondent's violations of the Commission's Order when setting rates in WR-2017-0037, and order that Respondent may not pay for or seek recovery of monies spent to pay such penalties from rate payers.

14. Additionally, as the basis of the rates adopted in WA-2018-0370 were set on the representations of Respondent's continued contracting with Ozark Clean Water, and that no such contract has been in place or effect since *prior* to the authorization of the initial rates, that the Commission Staff be directed to determine new rates based on volumetric usage data since the issuance of Respondent's certificate of convenience and necessity.

15. The Commission has jurisdiction to investigate compliance with its orders and over enforcement of its orders. *See* Sections 386.330-360, RSMo.

16. Respondent in this matter has initiated a small rate case proceeding in WR-2021-0177, notice of which was sent to customers on or about January 11, 2021.

17. Complainant moves to consolidate this matter with the WR-2021-0177, as disposition of this matter may effect utility accounting and other matters before the Commission in said rate case.

18. Complainant is otherwise within the intervention deadline prescribed by 20 CSR 4240-2.075.

Respectfully submitted,

SCHENEWERK & FINKENBINDER,
