Notice Text:

12/07/2007 - Haven 400 Line Shut-in and Curtailment Procedure - Update #4

As previously reported in Update #3, repairs to the 400 Line rupture should be completed to allow for a partial return to service for gas day December 11, 2007. Upon return to service, the pipeline will be limited to 1250 MMcf/d until permission is granted by the D.O.T. to return to full MAOP.

On November 26, 2007 Panhandle determined the 400 line rupture to be a force majeure event pursuant to section 8.8(b) of Pandhandle's FERC Gas Tariff.

In accordance with Section 9.2 of Pandhandle's FERC Gas Tariff, and beginning December 8, 2007, Panhandle will curtail firm services in the following order:

- 1) Service from secondary points of delivery outside the primary path
- 2) Service from secondary points of delivery within the primary path
- 3) Service from primary points of delivery

If you have any questions, please contact your Marketing Representative or your Nominations Analyst.
