[1] Wireless provider as identified by the company's application.

[2] "Yes" indicates at least one wireless provider cited by the company has been assigned local telephone numbers in the exchange based on information contained in the Local Exchange Routing Guide.

[3] "No" indicates none of the wireless providers identified by the company have a block of telephone numbers to assign customers within the exchange; nor does the exchange have toll-free calling to another exchange where the wireless provider may have local numbers which can be dialed on a toll-free basis by all customers within the exchange.

[4] The "Other" column describes situations where the wireless provider does not have local numbers within this particular exchange but the wireless provider does have telephone numbers in another exchange which may have some form of toll-free calling between the exchanges so that callers in the exchange can dial subscribers to the designated wireless provider on a toll-free basis.

[5] US Cellular has a block of local telephone numbers.
