

**KANSAS CITY POWER & LIGHT COMPANY
2014 ANNUAL RENEWABLE ENERGY
STANDARD COMPLIANCE REPORT**

EO-0215-0263

Prepared in Compliance with 4 CSR 240-20.100

22-April-2015

SECTION 1: INTRODUCTION

Kansas City Power & Light Company (“KCP&L”), a Missouri Corporation, has filed its 2014 Annual Renewable Energy Standard Compliance Report in compliance with the Missouri Public Service Commission’s (“Commission”) Electric Utility Renewable Energy Standard Requirements [4 CSR 240-20.100] (“Rule”) that became effective September 30, 2010. Section (7) of the rule requires that each public utility file with the Commission a Renewable Energy Standard (RES) Compliance Report by April 15 of each year.

Specifically, Section 7 (A) of the rule requires the following information for the most recently completed calendar year.

- A. Total retail electric sales for the utility, as defined by the Rule;
- B. Total jurisdictional revenue from the total retail electric sales to Missouri customers as measured at the customers’ meters;
- C. Total retail electric sales supplied by renewable energy resources, as defined by section 393.1025(5), RSMo, including the source of the energy;
- D. The number of RECs and S-RECs created by electrical energy produced by renewable energy resources owned by the electric utility. For the electrical energy produced by these utility-owned renewable energy resources, the value of the energy produced by these utility-owned renewable energy resources, the value of the energy created. For the RECs and S-RECs, a calculated REC or S-REC value for each source and each category of REC;
- E. The number of RECs acquired, sold, transferred, or retired by the utility during the calendar year;
- F. The source of all RECs acquired during the calendar year;
- G. The identification, by source and serial number, of any RECs that have been carried forward to a future calendar year;
- H. An explanation of how any gains or losses from sale or purchase of RECs for the calendar year have been accounted for in any rate adjustment mechanism that was in effect for the electric utility;

- I. For acquisition of electrical energy and/or RECs from a renewable energy resource that is not owned by the electric utility, the following information for each resource that has a rated capacity of ten (10) kW or greater:
 - a. Name, address, and owner of the facility
 - b. An affidavit from the owner of the facility certifying that the energy was derived from an eligible renewable energy technology and that the renewable attributes of the energy have not been used to meet the requirements of any other local or state mandate;
 - c. The renewable energy technology utilized at the facility;
 - d. The dates and amounts of all payments from the electric utility to the owner of the facility; and
 - e. All meter readings used for calculation of the payments referenced in part (IV) of this paragraph;
- J. The total number of customers that applied and received a solar rebate in accordance with section (4) of the Rule;
- K. The total number of customers that were denied a solar rebate and the reason(s) for denial;
- L. The amount of funds expended by the electric utility for solar rebates, including the price and terms of future S-REC contracts associated with the facilities that qualified for the solar rebates;
- M. An affidavit documenting the electric utilities compliance with the RES compliance plan as described in this section during the calendar year. This affidavit will include a description of the amount of over- or under-compliance costs that shall be adjusted in the electric utility's next compliance plan; and
- N. If compliance was not achieved, an explanation why the electric utility fail to meet the RES.

This 2014 report represents KCP&L's efforts to achieve the requirements of 4 CSR 240-20.100.

SECTION 2: RES COMPLIANCE REPORT

Rule (7)(A) 1: *This annual RES compliance report shall provide the following information for the most recently completed calendar year, as defined by the Rule.*

2.1 RULE (7)(A) 1 A:

Total retail electric sales for the utility, as defined by the Rule;

KCPL-MO (MWh)
8,554,331

2.2 RULE (7)(A) 1 B:

Total jurisdictional revenue from the total retail electric sales to Missouri customers as measured at the customers' meter;

KCPL-MO
\$824,705,985

2.3 RULE (7)(A) 1 C:

Total retail electric sales supplied by renewable energy resources, as defined by section 393.1025(5), RSMo, including the source of the energy;

Wind generation reported for Missouri is based on our energy allocation presumption.

	KCPL-MO (MWh)
Spearville I	174,945
Spearville II	98,478
Solar Aggregate 1*	141
Spearville 3	231,333
Cimarron II	327,010

* Solar Aggregate 1 represents KCP&L's small owned solar generation.

2.4 RULE (7)(A) 1 D:

The number of RECs and S-RECs created by electrical energy produced by renewable energy resources owned by the electric utility. For the electrical

energy produced by these utility-owned renewable energy resources, the value of the energy created. For the RECs and S-RECs, a calculated REC or S-REC value for each source and each category of REC;

The numbers presented below for Spearville generation are based on our energy allocation presumption.

KCPL-MO	Number created by electrical energy produced by renewable energy resources owned by the utility.	Value of Energy Created	Calculated value for each source and each category of REC
Spearville I	174,945 MWh	\$3,332,702	\$0
Spearville II	98,478 MWh	\$1,876,006	\$0
Solar Aggregate 1	141 MWh	\$4,912	\$0

The RECs created from Spearville I, II, and Solar Aggregate 1 are on the books at zero value since they are an additional benefit from generation that is already in the existing rate structure.

2.5 RULE (7)(A) 1 E

The number of RECs required, sold, transferred, or retired by the utility during the calendar year;

KCP&L utilizes the North American Renewable Registry (“NARR”) as recommended by Staff and approved by the Commission for tracking of all RECs.

	KCPL-MO	
	RECs	S-RECs
Acquired	0	8,700
Sold	0	0
Transferred	0	0
Retired	419,162	8,554

2.6 RULE (7) (A) 1 F

The source of all RECs acquired during the calendar year;

Please refer to Attachment A of this document for a list of sources for RECs acquired during the calendar year 2014.

2.7 RULE (7)(A) 1 G

The identification, by source and serial number, of any RECs that have been carried forward to a future calendar year;

Please refer to Attachment B of this document for a list RECs carried forward to a future calendar year by source and serial number.

2.8 RULE (7)(A) 1 H

An explanation of how any gains or losses from sale or purchase of RECs for the calendar year have been accounted for in any rate adjustment mechanism that was in effect for the electric utility;

There were no sales of RECs and any RECs acquired were either utilized for calendar year 2014 compliance or left in KCP&L's NARR account for future use.

2.9 RULE (7)(A) 1 I

For acquisition of electrical energy and/or RECs from a renewable energy resource that is not owned by the electric utility, the following information for each resource that has a rated capacity of ten (10) kW or greater;

Please refer to Attachment A for a resource list which includes name, address, owner, and renewable technology used at each resource. Additionally, the party responsible for the registry account (Account Holder Company) and who the RECs were acquired from, wholesale provider or aggregator, as applicable is included in the attachment. Attachment C, which contains HIGHLY CONFIDENTIAL information, contains the payments to owner of facility.

Electrical energy and RECs are acquired through power purchase agreements from CPV Cimarron II Renewable Energy Company, LLC (CIM2) and Spearville 3, LLC (SPV3). KCP&L uploads generation data monthly to NARR which is then verified by CIM2. RECs created are transferred to KCP&L. An affidavit from CIM2 is part of Attachment D. SPV3 designated KCP&L as the NARR Generator Owner's

Designation of Responsible Party which represents that the generator owner has not granted similar authority or permission to any other person for use in North American Renewables Registry or any similar registry or tracking system. As the party responsible for reporting generation, an affidavit is attached as part of Attachment D, signed by the KCP&L Manager – Fuels, Emissions & RECs.

S-RECs were acquired from a wholesale provider or aggregator. These S-RECs were registered in the Western Renewable Energy Generation Information System (WREGIS), a system that has the same information and registration requirements as the Commission selected system, NARR. Purchased S-RECs are transferred from WREGIS to NARR which maintains the integrity and tracking of each S-REC meeting the intent of the Commission’s Rule in this instance. Included in Attachment D is the affidavit from the seller of the S-RECs.

2.10 RULE (7)(A) 1 J

The total number of customers that applied and received a solar rebate in accordance with section (4) of the Rule;

	KCPL-MO
Applied & Received	499

2.11 RULE (7)(A) 1 K

The total number of customers that were denied a solar rebate and the reason(s) for denial;

	KCPL-MO
Denied	18
Reason	Net Metering Interconnection Application expired or not completed within the time limits established in Schedule SR of the Company's tariffs.

2.12 RULE (7)(A) 1 L

The amount of funds expended by the electric utility for solar rebates, including the price and terms of future S-REC contracts associated with the facilities that qualified for the solar rebates;

	KCPL
Solar Rebates	\$16,660,667

2.13 RULE (7)(A) 1 M

An affidavit documenting the electric utility's compliance with the RES compliance plan as described in this section during the calendar year. This affidavit will include a description of the amount of over- and under- compliance costs that shall be adjusted in the electric utility's next compliance plan;

RECs created by generation at Spearville I and II wind farms, located outside the state of Missouri, were utilized for compliance. KCP&L retired 419,162 vintage 2011 and 2012 RECs in order to meet its 2014 non-solar compliance obligation.

S-RECs were acquired from a third party, Costco Wholesale. KCP&L retired 8,554 vintage 2012 S-RECs in order to meet its 2014 solar compliance obligation. To comply with future solar REC requirements, KCP&L expects to utilize S-RECs transferred from qualified customer-generator's operational solar electric systems as a condition of receiving solar rebates.

The total cost incurred towards meeting compliance with Missouri's RES in 2014 was:

Resource	Resource Cost
Costs associated with Solar Rebates	\$17,191,950.05
S-RECs (for compliance)	\$19,494.57
NAR Administration	\$74,162.70

Solar Aggregate 1 (KCP&L_MO)	\$51,736
------------------------------	----------

KCP&L is in compliance with its RES Compliance Plan.

2.14 RULE (7)(A) 1 N

If compliance was not achieved, an explanation why the electric utility failed to meet the RES;

The utility has made every effort to comply and believes it has achieved compliance with Missouri's Renewable Energy Standard for 2014.

As designated by EDF Renewable Energy - formerly enXco, KCP&L has been authorized to register and report generation for the aforementioned facility. The renewable energy credits listed above are associated with generation for KCP&L only. The renewable attributes of the energy have not been used to meet the requirements of any other local or state mandate. Energy from this facility is derived from an eligible renewable energy technology as supported by the Missouri Department of Natural Resources certification of the facility.
