Mr. Jeff Davis, Chair
Missouri Public Service Commission
Governor Office Building
200 Madison Street
P.O. Box 360
Jefferson City, MO 65102-0360

Dear Mr. Davis:

I am writing in support of the request made by the United Way of Greater St. Louis for authority to operate 2-1-1 service for Missouri residents as an expansion of its existing information and referral program. People looking for help in Missouri often do not know where to begin locating such basic resources as food, shelter, employment, or health care, and may need to call dozens of phone numbers, and struggle through a maze of agencies and services to make the right connections.

The United Way of Greater St. Louis has a proven track record in providing high quality, comprehensive information and referral. In the early 1970's, the United Way's Information & Referral Service has answered millions of calls in their service area and linked people in need to all available and appropriate resources. Since 1985, the United Way has maintained the largest, most comprehensive database of health and human service agencies and programs in the St. Louis region, and looks to expand this expertise throughout the State with local community partnerships. In addition, the United Way currently provides utility assistance information for the entire Ameren service area, slightly less than the entire state and serves as the Operation Weather Survival resource hotline during periods of extreme heat.

The United Way of Greater St. Louis is committed to working in tandem with the Heart of America United Way's Metro Kansas City 2-1-1 service to ensure that all Missourians have access to this simple, reliable, universally recognizable number for finding needed health and human services. I encourage members of the Commission to move quickly to approve the request and made universal access to 2-1-1 a reality for all Missouri citizens.

Sincerely,

A handwritten signature in cursive script that reads "Jeff Smith".

Mr. Jeff Davis, Chair
Missouri Public Service Commission
Governor Office Building
200 Madison Street
P. O. Box 360
Jefferson City, MO 65102-0360

Dear Mr. Davis:

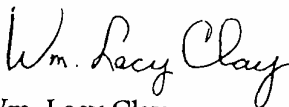

I am writing in strong support of the request made by the United Way of Greater St. Louis for authority to operate a 2-1-1 service for Missouri residents as an expansion of its existing information and referral program.

Missouri residents often do not know where to begin locating such basic resources as food, shelter, employment, or health care. The United Way plays a critical role in this regard by helping individuals and families to find the assistance that they need. A 2-1-1 service will enable this dedicated organization to reach even more people. In addition, this service will complement existing 9-1-1 services by providing 9-1-1 operators with an avenue to which non-emergency callers can be directed. In this way, they will be able to continue to keep their focus on responding to emergency calls

The United Way of Greater St. Louis has a proven track record of providing high quality information and referral services. Since the early 1970's, its Information and Referral Service has answered millions of calls and linked people in need to all available and appropriate resources. The United Way maintains the largest, most comprehensive database of health and human service agencies in the St. Louis region and looks to expand this expertise to citizens throughout the State with local community partnerships.

The United Way of Greater St. Louis is committed to working in tandem with the Heart of America United Way's Metro Kansas City 2-1-1 service to ensure that all Missourians have access to this simple, reliable, universally recognizable number for finding needed health and human services. It is my hope that their request will be given every careful consideration.

Sincerely,

Wm. Lacy Clay
Member of Congress

Dear Mr. Davis:

It is my understanding that the United Way of Greater St. Louis has requested authority to operate a 2-1-1- service for Missouri residents as an expansion of its existing information and referral program. As a state representative and member of the Committee on Appropriations-Health, Mental Health and Social Services, I am keenly aware of the struggle that many of our citizens face when trying to access services, and the problems they encounter as they try to determine which organization or agency to call for help.

The United Way of Greater St. Louis has provided high quality information and referral services for over thirty years. The agency has said that it is committed to working with the Heart of America United Way's Kansas City 2-1-1 to ensure that all Missourians have access to this simple number for finding needed health and human services. I encourage members of the Commission to move quickly to approve the United Way of Greater St. Louis' request and make universal access to 2-1-1 available to all Missouri citizens.

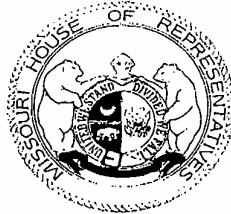

Very Truly Yours,

Mr. Jeff Davis, Chair
Missouri Public Service Commission
Governor Office Building
200 Madison Street
P.O. Box 360
Jefferson City, MO 65102-0360

Dear Mr. Davis:

As State Representative of the 14th District, I am writing in support of the request made by the United Way of Greater St. Louis for authority to operate a 2-1-1 service for Missouri residents as an expansion of its existing information and referral program. This service would help people to locate such basic resources as food, shelter, employment, or health care, and may need to call dozens of phone numbers, and struggle through a maze of agencies and services to make the right connections when emergencies such as the recent storms and power outages happen.

Since its start in the early 1970's, the United Way's Information & Referral Service has answered millions of calls in their service area and linked people in need to all available and appropriate resources. Since 1985, the United Way has maintained the largest, most comprehensive database of health and human service agencies and programs in the St. Louis region, and looks to expand this expertise throughout the State with local community partnerships. In addition, the United Way currently provides utility assistance information for the entire AmerenUE service area, slightly less than the entire state, and serves as the Operation Weather Survival resource hotline during periods of extreme heat. Therefore I believe The United Way of Greater St. Louis has a proven track record to ensure that this will become a very valuable resource service.

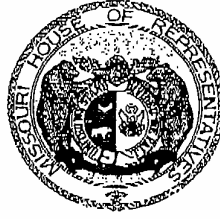

The United Way of Greater St. Louis together with the Heart of America United Way's Metro Kansas City 2-1-1 service could ensure that all Missourians have access to this simple, reliable, universally recognizable number for finding needed health and human services. I would ask that the members of the Commission act quickly to approve the request and make universal access to 2-1-1 a reality for all Missourians.

Respectfully Yours,

Rep. Joe Smith

People looking for help in Missouri often do not know where to begin locating such basic resources as food, shelter, employment, or health care, and may need to call dozens of phone numbers, and struggle through a maze of agencies and services to make the right connections.

The United Way of Greater St. Louis has a proven track record in providing high quality, comprehensive information and referral. Started in the early 1970's, the United Way's Information & Referral Service has answered millions of calls in their service area and linked people in need to all available and appropriate resources. Since 1985, the United Way has maintained the largest, most comprehensive database of health and human service agencies and programs in the St. Louis region, and looks to expand this expertise throughout the State with local community partnerships. In addition, the United Way currently provides utility assistance information for the entire AmerenUE service area, slightly less than the entire state, and serves as the Operation Weather Survival resource hotline during periods of extreme heat. They also helped during the recent mass power outages in the St. Louis area.

The United Way of Greater St. Louis is committed to working in tandem with the Heart of America United Way's Metro Kansas City 2-1-1 service to ensure that all Missourians have access to this simple, reliable, universally recognizable number for finding needed health and human services. I encourage members of the Commission to move quickly to approve the request and make universal access to 2-1-1 a reality for all Missouri citizens.

Sincerely,

Patricia M. Yaeger
