

**ACCESS TARIFF CONCURRENCE – Continued**

**Intrastate Access Services – Continued**

**C. Cancellation Rights**

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

**D. Exceptions to the Access Services Tariff of the Oregon Farmers Mutual Telephone Company**

1. The Company will not apply provisions of the Minimum Monthly Charge set out in Section 6.7.3 of the Oregon Farmers tariff.
2. Reserved for Future Use
3. The Company includes nonrecurring (one-time) charges for specific activities in conjunction with the installation of service (to include engineering), changes to an existing Switched Access Arrangement or activation/deactivation of a Carrier Identification Code (CIC).
  - a. Switched Access Ordering charges are associated with the work performed by the Company in connection with the receiving, recording, and processing of customer service requests. There are two types of service order charges:
    - 1) Initial Ordering Charge – Switched Access
 

This charge applies on a per Access Service Request (ASR) basis, including requests to add additional lines or trunks or activate an existing trunk as a result of additional trunks or BHMCs ordered for an existing service. Additionally, this would include the activation/deactivation of a Carrier Identification Code (CIC).
    - 2) Subsequent Ordering Charge – Switched Access
 

This charge applies on a per ASR basis for modifications to an existing service. This would include activities such as:

      - Changes and/or additions to end office services optional arrangements (changes in hunt group or screening arrangements).
