

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

IN THE MATTER OF THE APPLICATION OF	)	
WINDSTREAM MISSOURI, LLC FOR	)	
REVIEW AND REVERSAL OF THE DECISION	)	CASE NO. _____
OF NEUSTAR, INC. AS THE POOLING	)	
ADMINISTRATOR TO WITHHOLD	)	
NUMBERING RESOURCES	)	

APPLICATION AND MOTION FOR EXPEDITED TREATMENT

COMES NOW Windstream Missouri, LLC (“Windstream”) and respectfully requests that the Commission issue an Order that reviews and reverses the decision of the North American Numbering Plan Thousands-Block Pooling Administrator, NeuStar, Inc. (“NANPA”) to withhold certain numbering resources from Windstream.

The requested numbering resources are necessary to support the deployment of a Connect America Fund Phase 2 (“CAF2”) project.

In support of this Application, Windstream states as follows:

1. Windstream is a Missouri limited liability company duly authorized to conduct business in Missouri, as evidenced by the Certificate of Amendment filed on June 21, 2006 in Case No. IN-2006-0481, and incorporated by reference pursuant to Commission Rule 4 CSR 240-2.060(1)(G). Windstream’s principal office is located at 4001 Rodney Parham Road, Little Rock, Arkansas 72212. Windstream is a “local exchange telecommunications company” and a “public utility,” and is duly authorized to provide “telecommunications service” within the State of Missouri as each of those phrases is defined in Section 386.020, RSMo 2000.

2. All correspondence, pleadings, orders, decisions and communications regarding this docket should be sent to:

Carol Keith
VP – Law – Contracts & Compliance
Windstream Missouri, LLC
4001 N. Rodney Parham Road
Little Rock, AR 72112

3 This Application is prompted by the need to serve customers in its Laclede, Liberal and Madison rate centers via new packet switches that are being deployed to support the CAF2 project in those locations. According to the applicable industry *Location Routing Number (LRN) Assignment Practices document (ATIS-0300065)* Windstream must establish a unique LRN to identify the recipient switch or POI and must establish one LRN per LATA per switch from an assigned NXX for the recipient switch in the number portability capable network. Thus, Windstream must obtain an LRN for the new packet switches located in the Laclede, Liberal and Madison rate centers. Also pursuant to industry guidelines, only an NXX code holder can obtain an LRN, thus necessitating Windstream's request for an NXX code for this rate center. It should be noted, however, that Windstream would retain only a single thousand-number-block from the new NXX code.

4. Given the need described above, on May 24, 2016 (Laclede and Liberal) and on June 3, 2016 (Madison), Windstream submitted Applications for the LRNs, NXX codes and thousand number blocks required to complete the CAF2 project to NeuStar, acting as the NANPA . (A copy of Windstream's Applications are attached hereto and incorporated by reference herein as Exhibits A-C, respectively.)

5. NeuStar subsequently denied Windstream's request on the grounds that it failed to meet the months-to-exhaust criteria and/or the utilization criteria established by the Federal Communications Commission ("FCC"). (Copies of both NeuStar's denial are attached hereto and incorporated by reference herein as Exhibits D-F, respectively.) As a result of NeuStar's denial, Windstream has been unable to obtain the LRNs, NXX codes and thousand number blocks it requested and which are required for deployment of this CAF2 project.

6. Under existing procedures, NeuStar, as the NANPA, is required to accept or reject an application for numbering resources based solely on FCC criteria, which require that an applicant establish that its existing numbers inventory within the rate center will exhaust within six months of the application and

sets a rate center utilization threshold of seventy-five percent.¹ However, as the Commission is aware, the FCC has adopted a safety valve mechanism to allow carriers that do not meet the months-to-exhaust and utilization criteria in a given rate center to obtain additional numbering resources. In establishing the safety valve, the FCC recognized that conditions that could give rise to a need for additional numbering resources “might include situations where a carrier has multiple switches within a rate center but it is unable to readily share numbering resources among those switches.”² The FCC makes clear that through the safety valve mechanism a carrier may challenge a numbering resource denial by the NANPA before the appropriate state regulatory commission and that the state commission has jurisdiction to affirm or overturn the NANPA’s decision to withhold numbering resources.

7. Windstream seeks the Commission’s reversal of NeuStar’s decision, acting as NANPA, and requests the Commission to direct NeuStar to assign three LRNs (one each for its new packet switches)³. The FCC permits such direction in order to meet specific customer demands and specifically grants state commissions “flexibility to direct the NANPA or pooling Administrator to assign additional numbering resources to carriers that have demonstrated a verifiable need for additional numbering resources outside of these specifically enumerated instances.”⁴ Windstream has demonstrated a verifiable need due to its needs in connection with a CAF2 project upgrade to these rural exchanges. Windstream cannot meet the requirements of this request from its current inventory or in any other manner.

8. Windstream respectfully requests that the Commission act upon this Application within ten (10) business days. The FCC has recognized the importance of timely action:

¹ *Second Report and Order, Order on Reconsideration* in CC Docket No. 96-98 and CC Docket No. 99-200 and *Second Further Notice of Proposed Rulemaking* in CC Docket No. 99-200, In the Matter of Numbering Resource Optimization, Petition for Declaratory Ruling and Request for Expedited Action on the July 15, 1997 Order of the Pennsylvania Public Utility Commission Regarding Area Codes 412, 610, 215 and 717, FCC 00-419 (rel. December 29, 2000), at ¶ 29.

² *Third Report and Order and Second Order on Reconsideration* in CC Docket No. 96-98 and CC Docket No. 99-200, In the Matter of Numbering Resource Optimization, Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, and the Telephone Number Portability, FCC 01-362, (rel. December 28, 2001), ¶¶58, 61 and 65.

³ Again, Windstream would retain only single thousand-number-blocks from each of these new NXX codes, but requires the codes because it requires the LRNs for the new switches and only a code holder in the rate center can obtain an LRN.

[W]e recognize that in many instances, the failure to address a request for additional numbering resources can impair a carrier's ability to stay in or expand business. We therefore direct states to act on carrier requests for a safety valve as expeditiously as possible. Although we do not establish a specific time limit for states to act on these requests, we believe that, in most instances, 10 business days from receipt of a request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.⁵

9. This Application complies with the Commission's applicable rule, 4 CSR 240-37.040. Windstream has attached hereto its "Months to Exhaust Worksheets" indicating the utilization of the covered rate centers encompassing both the preceding six months and projected monthly utilization for the next twelve months. 4 CSR 240-37.040(1)(A)1. *See*, Exhibits G-I, respectively, attached hereto and incorporated by reference. Additionally, Windstream has attached copies of its originally-filed requests to NANPA and NANPA's denial of those requests. 4 CSR 240-37.040(1)(A)3. *See*, Exhibits A-C, respectively. These materials and the instant Application demonstrate a verifiable need for the numbering resources requested herein. Windstream has exhausted all other available remedies designed to conserve numbering resources as related to this request.

10. Granting Windstream's Application will not adversely affect the numbering resources available for use by carriers throughout the state in providing telecommunications services to their customers. Granting Windstream's request is in the public interest and consistent with the FCC's rules and decisions.

11. Windstream has no final unsatisfied judgments or decisions against it from any state or federal agency or court which involve Missouri retail customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application, nor does Windstream have any pending action against it in Missouri, brought by end-user customers, which involves retail customer service or rates.

12. Windstream does not have any annual report or assessment fees that are overdue in Missouri.

⁴ FCC 01-362 at ¶61.

⁵ *Id.* at ¶66.

WHEREFORE, Windstream respectfully requests that the Commission overturn and reverse NeuStar's previous determination as the NANPA; direct NeuStar to grant Windstream's applications regarding its request for the numbering resources included in those applications and as described herein; act within ten (10) business days as suggested by the FCC or as soon thereafter as is possible; instruct NeuStar acting as NANPA to release the numbering resources as specified herein; and grant all other proper relief to which Windstream may be entitled.

Respectfully submitted,

Windstream Missouri, Inc.

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code (s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the iconectiv Telcordia Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character iconectiv COMMON LANGUAGE CLLI™ Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc. dba iconectiv)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such

arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment shall not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the iconectivTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by iconectiv Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch

Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider ^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. The also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

Signature of Block Applicant Title

Date

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the iconectivTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by iconectiv Telecom Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch

Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider ^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Footnotes:

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code (s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the iconectiv Telcordia Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character iconectiv COMMON LANGUAGE CLLI™ Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc. dba iconectiv)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such

arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment shall not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

¹A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.

²Report on all resources for the requested geographic area, including newly acquired blocks/codes.

³Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

⁴Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

⁵Forecast of TNs needed in each following month, starting with the most recent month as Month #1.

⁶To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, section 52.15 (g) (3) (iii)).

⁷Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))
