File No. ER-2020-0147 Rider EEIC

Dear Mr. Woodruff:

On November 22, 2019, Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri" or "Company") submitted its Rider EEIC filing in Tracking No. YE-2020-0090, simultaneously with the testimony of William R. Davis supporting Rider EEIC in this matter.

Subsequent to those submissions, the Company discovered two errors in the filing that impact the rates contained in the tariff, as well as Mr. Davis' supporting testimony and three of his schedules. One error related to the earnings opportunity allocation, and the other error related to the throughput disincentive forecast. Staff identified a third error regarding old rule citations contained in the tariff schedules. Accordingly, the corrected documents being submitted in this case are:

- Corrected direct testimony of William R. Davis
- Corrected Schedule WRD1 (reflecting three corrected tariff sheets)
- Corrected Schedule WRD2
- Corrected Schedule WRD3

The corrected tariff sheets contained in Corrected Schedule WRD-1 are also being submitted as substitute tariff sheets in Tracking No. YE-2020-0090. Specifically, the substitute tariff sheets correct the rate contained in Sheet No. 91.23, and update the rule citations found in Sheet No. 91.10 and 91.21.

Sincerely,

Paula N. Johnson

Paula N. Johnson
