11  
12           Q.     Please state your name and business address.

13           A.     Thomas M. Imhoff, P.O. Box 360, Jefferson City, Missouri 65102.

14           Q.     By whom are you employed and in what capacity?

15           A.     I am the Rate & Tariff Examination Supervisor in the Energy Department  
16 of the Missouri Public Service Commission (Commission).

17           Q.     Please describe your educational background.

18           A.     I attended Southwest Missouri State University at Springfield, Missouri,  
19 from which I received a Bachelor of Science degree in Business Administration, with a  
20 major in Accounting, in May 1981. In May 1987, I successfully completed the Uniform  
21 Certified Public Accountant (CPA) examination and subsequently received the CPA  
22 certificate. I am currently licensed as a CPA in the State of Missouri.

23           Q.     What has been the nature of your duties with the Commission?

24           A.     From October 1981 to December 1997, I worked in the Accounting  
25 Department of the Commission, where my duties consisted of directing and assisting with  
26 various audits and examinations of the books and records of public utilities operating  
27 within the State of Missouri under the jurisdiction of the Commission. On January 5,  
28 1998, I assumed the position of Regulatory Auditor IV in the Gas Tariffs/Rate Design  
29 Department, where my duties consist of analyzing applications, reviewing tariffs and

1 making recommendations based upon those evaluations. On August 9, 2001, I assumed  
2 my current position of Rate & Tariff Examination Supervisor in the Energy Tariffs/Rate  
3 Design Department, where my duties consist of direct Commission Staff within the  
4 Department, analyzing applications, reviewing tariffs, and making recommendations  
5 based upon my evaluations and the evaluations performed by Staff within the  
6 Department.

7 Q. Have you previously filed testimony before this Commission?

8 A. Yes. A list of cases in which I have filed testimony before this  
9 Commission is attached as Schedule 1 to my direct testimony.

10 Q. With reference to Case No. GR-2007-0208, have you participated in the  
11 Commission Staff's (Staff) audit of Missouri Gas Utility (MGU or Company) concerning  
12 its request for a rate increase in this proceeding?

13 A. Yes, I have, with the assistance of other members of the Staff.

14 **EXECUTIVE SUMMARY**

15 Q. What is the purpose of your direct testimony?

16 A. The purpose of my direct testimony is to provide an overview of the Staff  
17 position relating to class cost-of-service (CCOS), rate design and miscellaneous tariff  
18 issues. I am sponsoring the staffs CCOS, Rate Design, and Miscellaneous Tariffs Report  
19 in this proceeding which describes in greater detail, the Staff's position relating to these  
20 issues, and is being filed concurrently with this testimony. The report was prepared by  
21 various Staff members under my direction. The "Report" approach to the case filing  
22 minimizes the number of Staff witnesses required to file direct testimony and provides

1 for a clearer presentation of the Staff's position on CCOS, rate design and miscellaneous  
2 tariff issues.

3 **CLASS COST OF SERVICE**

4 Q. What is the purpose of Staff's CCOS?

5 A. The purpose of Staff's CCOS is to provide the Commission with a  
6 measure of relative class cost responsibility for the overall revenue requirements of  
7 MGU. MGU's customer classes includes General Service (Residential), Commercial,  
8 Large Volume and Transportation. For individual items of cost, the responsibility of a  
9 certain class of customers to pay that cost can be either directly assigned or allocated to  
10 customer classes using reasonable methods for determining the class responsibility for  
11 that item of cost. The results are then summarized so that they can be compared to  
12 revenues being collected from each class on current rates. The difference between a  
13 particular customer class' costs responsibility and the revenues generated by that  
14 customer class is the amount that class is either subsidizing (revenues greater than costs)  
15 the other classes are being subsidized (revenues less than costs).

16 Q. What is the Staff's recommendation on CCOS?

17 A. The Staff is not recommending any shift in revenue responsibility in this  
18 case. MGU has not performed any CCOS Studies in this case. Staff would recommend  
19 that MGU file a CCOS Study in its next rate case.

20 **RATE DESIGN**

21 Q. What is rate design?

22 A. Rate design is the assignment of rates to each customer class and is based  
23 from the Staff's CCOS and other relevant factors to this case.

1 Q. What is Staff's position relating to the rate design issue?

2 A. Staff is proposing a Straight Fixed Variable (SFV) rate for the General  
3 Services (GS) class. The composition of the GS class is residential customers with a few  
4 small non-residential (primarily retail) customers. The SFV collects all non-gas costs in a  
5 flat, fixed monthly/delivery charge. The charge is the same for all customers in the GS  
6 class. Staff is recommending conservation measures that are to be used in concert with  
7 the SFV rate design proposal as outlined in the Staff report.

8 Staff recommends that each component of MGU's Customer Service, Large  
9 Volume Service and Transportation Service non-gas tariffed rates increase by the same  
10 percentage as MGU's non-gas revenue requirement percentage increase. Staff is not  
11 proposing the SFV rate design for these customer classes.

12 **MISCELLANEOUS TARIFF ISSUES**

13 Q. What is the Staff position on MGU's proposed changes to its  
14 miscellaneous tariff rates?

15 A. Staff is proposing no changes to these rates at this time. In its filing,  
16 MGU has not provided sufficient support for any proposed changes. Staff recommends  
17 the Commission require MGU file a tariff for a Non-Sufficient Funds (NSF) check  
18 charge tariffed rate. MGU is currently charging customers this rate without having an  
19 approved tariff. Due to the immateriality of the total NSF funds collected, Staff is not  
20 seeking a complaint with the understanding that MGU will file a tariff to reflect this  
21 charge.

22 Q. Please identify the Staff witness responsible for addressing each area in  
23 the Report.
