**Case No. EO-2006-0142**

**MOTION FOR PROTECTIVE ORDER**

Pursuant to 4 CSR 240-2.085, Kansas City Power & Light Company ("KCPL") hereby respectfully requests that the Missouri Public Service Commission ("Commission") issue its standard-form protective order in the above-captioned case. In support hereof, KCPL states as follows:

1. KCPL anticipates that it may seek in testimony, or may be asked through Commission Staff data requests, to provide competitive pricing information and technical, financial and business information of a confidential or proprietary nature. Additionally, KCPL anticipates that other information that may be requested or utilized in testimony by the Staff, as well as the Office of Public Counsel or other intervenors, may contain customer-specific information, competitive pricing information, trade secrets and confidential, technical, financial and business information, or other material of a confidential or proprietary nature. The public disclosure of such information is likely to harm the interests of KCPL, its employees and its customers. KCPL will not seek the confidential treatment of any information that is already publicly available.

2. Consequently, because the potential exists for the public disclosure of confidential or proprietary information without a protective order in place, KCPL respectfully requests that

the Commission issue its standard-form protective order in this case, containing classifications of “highly confidential” and “proprietary.”

For the reasons set forth above, KCPL respectfully requests that the Commission: (i) issue the Commission’s standard-form protective order containing classifications of “highly confidential” and “proprietary” to guide the parties’ conduct in this case; and (ii) grant such further relief as the Commission deems appropriate.

Respectfully submitted.
