<sup>\*\*</sup>The information which remains designated as confidential in the revised pleading is information that, if released, could allow interested parties to back into a calculation of the COVID-related costs related to security, etc. Because securing necessary services could involve putting services out for bid, it could provide an advantage to potential bidders that allow them to skew their bids and contract terms. Additionally, release of this information could allow competitors for these services to ascertain the Company's maximum bidding ability and outbid the Company for services. The Company could lose market viability, and ultimately pay higher costs to remain competitive. The end result could be higher bids, fewer bidders, and potentially higher costs to Ameren Missouri's customers, which serves no public purpose.
