

BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the Matter of the 2013	)	
KCP&L Greater Missouri Operations Company	)	Case No. EO-2014-0257
Annual IRP Update Report	)	

**MOTION TO INTERVENE OF SIERRA CLUB AND MOTION FOR
EXPEDITED TREATMENT**

Comes now the Sierra Club, and pursuant to 4 CSR 240-2.075, applies to intervene herein.

1. The Club was a party to GMO's original IRP docket, EO-2012-0324, last year's update, EO-2013-0538, and the stipulation reached in GMO's MEEIA filing, EO-2012-0009, and therefore has a longstanding interest in the subject matter of this case.

2. Sierra Club is a nonprofit organization organized and existing under the nonprofit corporation laws of the state of California. Sierra Club has more than 700,000 members nationally, and members who reside in GMO's service territory and are GMO ratepayers. The Missouri Chapter of the Club has an office at 7164 Manchester, St. Louis, MO 63143; email john.hickey@sierraclub.org; telephone 314-644-1011. Sierra Club exists for the purposes of preserving and protecting environmental values, and for years has been actively concerned with protecting air and water quality throughout the state of Missouri. Sierra Club's interest in protecting and enhancing the quality of ambient air and water throughout the state will be favorably affected if GMO aggressively pursues energy efficiency and demand response programs and renewable energy initiatives that displace fossil fuel generation. Sierra Club is concerned with the build-up of greenhouse gases which lead to global warming, and with pollution from non-

renewable sources which cause a host of health problems including asthma, mercury poisoning, sudden infant death syndrome, respiratory problems, and other problems. Sierra Club has been actively encouraging the use of energy efficiency and renewable energy sources.

3. The Sierra Club's interests focus on environmental protection and hence are different from those of the general public and could be adversely affected by an order approving inadequate levels of DSM programs or continued utilization of excess coal-based generating capacity.

4. Movant is not yet certain of the position they will take in this case.

5. It will serve the public interest for the PSC to grant this application to intervene.

WHEREFORE, the Sierra Club respectfully requests the Public Service Commission to grant the application to intervene.
