Transportation Services

Effective April 14, 2005, non-residential customers using more than 1,500 Mcf in a 12-month period can elect to transport their natural gas. Previously, the minimum qualification for gas transportation service was 3,000 Mcf for a 12-month period.

What is Gas Transportation?

Non-residential customers of Kansas Gas Service who meet the minimum qualification level have the option to purchase their natural gas from a supplier or marketer other than Kansas Gas Service. Kansas Gas Service delivers the gas you purchase to your facility.

■ *The Basics*

- Under deregulation, marketers are free to compete for your business. View a list of the current known marketers serving the Kansas Gas Service system.
- As a transport customer, you are responsible for the purchase and delivery of natural gas to the Kansas Gas Service local town border station.
Most marketers will require you to enter into a contract defining their responsibilities and your obligations.
- Your contract with your marketer may require him to nominate and deliver gas each day on your behalf to the town border station.
Kansas Gas Service then delivers the gas from the town border station to your business or facility.
- You and your marketer will need to complete and provide Kansas Gas Service a Transportation Affidavit.
You will receive two gas bills – one from Kansas Gas Service for delivering your gas supply, and one from your marketer for your natural gas and upstream transportation.
- Your total cost for natural gas may be less when transporting.

What do I need to do?

Use our Transportation Checklist for a step-by-step process.

Who qualifies for Gas Transportation?

You can check to see if you qualify for transportation by looking at your Kansas Gas Service bills and totaling the annual Mcf usage for your gas meter. Gas volumes used to qualify for transportation can be through a single meter or multiple meters as long as those meters are serving adjacent or contiguous properties.

You also may send an e-mail request to determine if your account qualifies (Please include a contact name, phone number and the account number found on your current Kansas Gas Service bill).

Kansas Gas Service Transportation Tariffs (Rates)

Schedule RJH 14.2

Over 1,600 Mcf in 12 months – Small Transportation Service (available in all communities)

Schedule RJH 14.5

THE STATE CORPORATION COMMISSION OF KANSAS

INDEX NO. 28.1KANSAS GAS SERVICE
A DIVISION OF ONEOK, INC.SCHEDULE STk

Rate Area "k"

(Territory to which schedule is applicable)

Replacing Schedule STk Sheet 1which was filed November 16, 2006No supplement or separate understanding
shall modify the tariff as shown hereon.Sheet 1 of 2 SheetsSMALL TRANSPORTATION SERVICEAVAILABILITY

Available in and around the communities specified in the Index to commercial and industrial customers. Service is subject to the DEFINITIONS AND CONDITIONS section below.

NET MONTHLY BILL

\$ 23.35 Service Charge

plus

Delivery Charge

\$ 1.8010 per Mcf for all gas delivered

plus

Applicable adjustments and charges provided in Company's Ad Valorem Tax
Surcharge Rider and Gas System Reliability Surcharge Rider.

The Net Monthly Bill shall be no less than the Service Charge plus any minimum charges set forth in a customer's Service Agreement.

DEFINITIONS AND CONDITIONS

1. Annual deliveries of at least 1,500 Mcf at a single location during the last 12 billing periods shall qualify a customer for service under this schedule. A customer, once qualified, shall remain eligible for service under this schedule.
2. A customer shall meet all conditions of the following tariffs to maintain service under this rate schedule:
 - a. Electronic Flow Measurement Rider
 - b. Company's General Terms and Conditions for Gas Service (GTC), Section 10 Requirements for Transportation Service.
3. Company may base a bill on a customer's normal meter reading cycle, but may issue that bill at the beginning of the next billing month. Although the bill may indicate a different period, it shall reflect actual information obtained from the regular-cycle meter reading. A customer served under this rate schedule and who desires a calendar month-based bill must install electronic flow measurement equipment and will not be eligible for RDQ balancing.
