**Subject:** RE: Estimated Telemetry Costs

To install telemetry for a Customer transferring from system sales to daily gas transportation in 2010, estimates given to Customer's for each state are shown below:

Iowa - \$3385  
Nebraska - \$3323  
South Dakota - \$2549

These are estimated costs and will change based on each Customer's specific site and needs. TC

**Subject:** Estimated Telemetry Costs

Tami – last year on October 7<sup>th</sup> you provided to me the estimated costs for telemetry equipment for MidAmerica. Those costs were as follows:

Iowa - \$1676.42  
Nebraska - \$1610.40  
South Dakota - \$1,380.90

Would you please provide to me what your estimated costs are for 2010 and whether these are fully loaded costs, including labor, that a customer would be expected to pay. I'm asking for this information not because of a current effort to convert one of your sales customers to transportation but rather as a reference point to compare to other LDC's charges for the installation of this equipment.

Thank you.
