Mr. George D. Willet
12 Mallory Avenue
Elgin, Illinois 60120

Dear Mr. Willet:

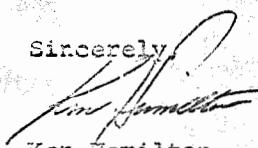

At the time that you entered into your agreement to purchase a lot in Turkey Mountain Estates, there had been no effective Statement of Record filed with the Office of Interstate Land Sales Registration as required by the Interstate Land Sales Full Disclosure Act, effective April 28, 1969. As of October 23rd, your subdivision was approved by the Department of Housing and Urban Development and an effective date established then.

Any Property Report which you may have received was also not effective with the Office of Interstate Land Sales Registration. In view of the fact that your purchase occurred prior to the effective date for the Statement of Record and Property Report, you may, if you wish, request that your agreement be voided as provided in Section 1404(b) of the Interstate Land Sales Full Disclosure Act and any payments made in accordance with this agreement be refunded.

So that our records may be brought up to date, we would appreciate your informing us of your desire to void your contract within thirty days from the date you receive this letter.

If you have any questions regarding this matter, please feel free to call this office and we will make every effort to be of help to you.

Sincerely,

Ken Hamilton
Accounting Office

P.S. Please sign the enclosed form and send it back to us at your earliest convenience.

4. If periodic payments are to be made by a buyer, complete
all items under this paragraph 4.

a. Will the sales contract be recordable?

No.

- b. In the absence of recording, could the developer's creditors or others acquire title to the property free of any obligation to deliver a deed to the buyer when final payment has been made under the sales contract?

There is a remote but technical possibility that the buyer would not acquire title if the contract is not recorded and the developer makes a subsequent conveyance to third parties. There is also a remote possibility of judgement creditors taking the property at a sheriff's sale without the statutory notice which would be afforded by recordation of the contract of sale. However, in either case, the developer would be subject to liability for damages sustained by the buyer.

- c. What provision, if any, has been made for refunds if buyer defaults?

None.

- d. State prepayment penalties or privileges, if any.

There is no penalty for prepayment. If a buyer pays off a lot within 90 days, he gets a 10% discount.

5. Is there a blanket mortgage or other lien on the subdivision or portion thereof in which the subject property is located?

Yes. There are mortgages on the subdivisions. There is no arrangement for protecting the interest of the buyer if the developer defaults in payment of the lien obligation.

Turkey Mountain Estates #1: A mortgage is held by the Security Bank and Trust Company, Branson, Mo. At the time the buyer pays for his lot in full, Turkey Mountain Estates, Inc., sends to the bank 25% of the gross lot price. The bank makes a Deed of Release and records the said lot for release. Turkey Mountain Estates, Inc., then furnishes a Warranty Deed to the buyer.

No.

7. Is buyer or lessee to pay taxes, special assessments, or to make payments of any kind for the maintenance of common facilities in the subdivision (2) before taking title or signing of lease or (b) after taking title or signing of lease?

Yes. There are restrictions on the reverse side of the contract which are enforceable between the first and second party and not the third party. As of November 1, 1970, all restrictions on these subdivisions will be recorded and placed on record.

- (c) Buyer should determine permissible uses of the property from local zoning authorities.

9. (a) List all recreational facilities currently available. State any costs or assessments to buyer or lessee.

Golf Course, Swimming Pool, Launching Ramps, Picnic Area. Annual membership fee for the Golf Course is \$60.00 and \$40.00 for the Swimming Pool.

- (b) If facilities are proposed or partly completed, state promised completion date, provisions to insure completion, and all estimated costs or assessments to buyer or lessee.

All facilities have been completed and the only assessments are the annual membership fees noted in (a) above.

10. State whether the following are now available in the subdivision. Give the estimated cost and completion date.

Garbage and trash collection: Available through a private concern for approximately \$2.50 per month.

Sewage Disposal: The health laws of the State of Missouri do not require approval of subsurface sewage disposal system prior to the platting of the subdivision or the construction of these systems. It is the opinion of the developer that individual septic units will function satisfactorily in this subdivision. The general experience of the Missouri Water Pollution Board, however, has been that septic tanks and tile fields do not function well in the State of Missouri and that they constitute a threat to the quality of both surface and subsurface waters of the State. Purchasers are advised that if the installation and use of septic tanks results in pollution of such waters, they may be subject to remedial action by the Missouri Water Pollution Board and they may not be permitted to continue the use of such a system.

Paved Streets: Turkey Mountain Estates #1 - 60% of the roads are blacktopped. Remaining 40% will be blacktopped no later than November 15, 1970.

Turkey Mountain Estates #1 East, Second Subdivision: Roads in the subdivision are under construction by Norman Construction Company with a completion date of June 1971. Roads will be blacktopped by Shafer-Cum Construction Co., Inc., with a completion date of November 15, 1972. The roads have been dedicated to the County and they will maintain the roads in the sub-division.

Turkey Mountain Estates #2: All streets have been built and will be blacktopped no later than November 15, 1971.

Electricity: Available through Carroll Electric Cooperative Corporation, Berryville, Arkansas.

Gas: Available through Uniongas Branson, Shell Knob, Missouri.

Water: Available. State approved wells will be drilled by Turkey Mountain Estates, Inc. Annual maintenance charge will be \$25.00. The developer is in the process of obtaining a letter from a cognizant health officer on the quality and purity of water. In addition, the developer has retained a registered Engineer to design a state approved water system. The Engineer has assured us that ample water can be obtained in the Roubideaux sand at an approximate depth of 400 feet. In Turkey Mountain Estates #1, water lines will not be extended to lots in Gumbo Woods Addition. In Turkey Mountain Estates #2, lot owners will form an association for maintenance of the water system and be responsible for the cost from the well to their property line. Water will not be furnished to Lots 47 thru 49, 51 thru 53, 55 thru 57, 59 thru 61, 63 thru 65, 67 thru 69, 71 thru 73 in Subdivision 2; 5 thru 19, 34, 35, 37 thru 39, 41 thru 43, 45 thru 47, 49 thru 51, 53 thru 55, 57 thru 59, 61 thru 63, 65 thru 67, 69 in Subdivision 4, and all lots in Subdivision 7.
