SHEET NO. RT 18.0

SHEET NO. RT 18.0

MISSOURI-AMERICAN WATER COMPANY
NAME OF ISSUING CORPORATIONFOR ST. LOUIS COUNTY, MO
COMMUNITY, TOWN, OR CITY**Rate I – Infrastructure System Replacement Surcharge (ISRS)**

DESCRIPTION: Rate I is designed to recover the costs associated with the Company's eligible main, valve and hydrant replacements, main relocations, and main cleaning and relining projects. This ISRS rate is calculated and implemented in accordance with the provisions of sections 393.1000 to 393.1006 RSMO. Any future changes to this rate will also be made in accordance with those provisions.

APPLICABILITY: This rate is applicable to any customer class who benefits from the subject utility plant projects eligible for ISRS recovery. The surcharge is calculated consistent with the customer class cost-of-service study recognized by the Missouri Commission in a Company's recent applicable general rate proceeding.

RATE COMPONENTS:

In addition to the other charges provided for in the Company's tariffs, a separate charge for the ISRS will apply for service rendered on and after the effective date.

Surcharge Rate (1)

	<u>Rate per CCF</u>	<u>Rate per 1,000 Gallons</u>
Rate A Customers	\$.0420	\$.0560
Rate B Customers	\$.0027	\$.0036
Rate J Customers	\$.0019	\$.0025
Rate K Customers	\$.0420	\$.0560

Investing in Water Systems

The Infrastructure System Reinvestment Surcharge (ISRS) helped to fund more than \$___ million in St. Louis County water system upgrades from October, 2008 through March, 2009. This plan of continuous investment in water pipelines improves system reliability at a monthly cost of less than \$___ for most residential customers.

What is ISRS?

ISRS is the Infrastructure System Replacement Surcharge (ISRS) – a program authorized by the State of Missouri in 2003. The program allows Missouri American Water to fund necessary and ongoing improvements to our water infrastructure.

What are the current ISRS rates?

Effective <date>, the Missouri Public Service Commission approved an increase in the ISRS surcharge. This increase will add an extra ___ cents per month for the average residential customer using 7,500 gallons of water per month. The surcharge rates are shown in the table below.

Why do we need the ISRS program?

Missouri American Water uses the ISRS program to replace aging waterlines more quickly, using a planned, systematic approach. In St. Louis County, we maintain more than 4,200 miles of water mains. Throughout our system, many of the older water mains are wearing out due to age and corrosion. The resulting water main breaks can cause service interruptions, damage to property and inconvenience to our customers.

ISRS allows Missouri American water to replace these aging water lines more quickly. We use a systematic approach – identifying the replacement projects with good cost/benefit opportunities.

This infrastructure investment helps reduce the number of water main breaks, improve service reliability and fire protection and enhance the integrity of the water system for future generations.

Is there regulatory oversight for these charges?

Yes. As water mains and other eligible infrastructures are replaced, the costs are accumulated and reviewed by the Missouri Public Service Commission (MoPSC). If the MoPSC approves the ISRS costs, Missouri American Water applies a surcharge to customer bills to recover, over time, the cost of system improvements.

What is the impact on customer bills?

The costs of these ongoing system improvements are less than \$___ per month for the average residential customer. Costs to make these improvements continue to grow. By investing in these upgrades now, we save construction costs over the long term and help to improve service reliability and fire protection for future generations.

Following is a summary of the ISRS surcharges, by customer type, as of <date>.

Customer	Rate per 100 cubic feet (CCF)
Residential, Commercial or Other Public Authority	\$
Public Water Supply Customers	\$
Large Customers	\$
ISRS is implemented pursuant to Sections 393.1000, 393.1003, 393.1006 RSMo; CSR 240-2.060 (1) and 4 CSR 240-3.650	

**Missouri American Water Company
2009 ISRS Filing
Instructions for Call Center Personnel**

- 1) Each Call Center personnel will be required to read and be familiar with the ISRS Filing and Reporting Requirements.
- 2) Call Center personnel will be required to respond to customer inquiries regarding the following:
 - a. Benefits of ISRS Program
 - b. Proposed and authorized ISRS rates
 - c. Calculation of ISRS
 - d. Effective date of ISRS
 - e. How long the rate will be in effect
 - f. Future ISRS rate changes
- 3) Call Center personnel will understand the general nature of the ISRS projects which will complement questions regarding the benefits of the program.

Investing in Water Systems

**The Infrastructure System
Replacement Surcharge has
funded more than \$xx million in
water system improvements from
{date} to {date}.**

Infrastructure Investment

The ISRS charge on your water bill helps fund completed improvements to the vast network of pipelines, fire hydrants and other critical components of St. Louis County’s water system. These ongoing improvements are designed to reduce the number of water main breaks, improve service reliability and fire protection and enhance the integrity of our water system.

The typical residential customer using x,xxx gallons of water pays an average of \$0.xx per quarter for ISRS. It’s an important investment in our community’s water service and fire protection.

ISRS Rates

Customer	Rate per 100 cubic feet (CCF)
Residential,	
Commercial or Other Public Authority	\$0.00
Public Water Supply District	\$0.00
Resale Customers	\$0.00

ISRS is implemented pursuant to Sections 393.1000, 393.1003, 393.1006 RSMo; CSR 240-2.060 (1) and 4 CSR 240-3.650

Missouri American Water maintains about 4,200 miles of water mains and 31,000 fire hydrants in St. Louis County. The Infrastructure System Replacement Surcharge (ISRS) helps us upgrade our aging infrastructure more quickly, improving water service reliability.
