Dear Mr. Roberts:

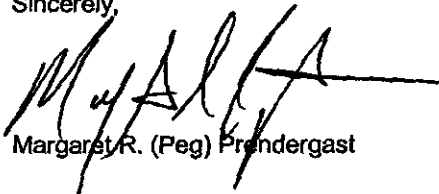

Enclosed for filing are an original and three (3) copies of revised pages for Sprint Missouri, Inc. d/b/a/ Sprint General Exchange Tariff. These revisions are filed in accordance with Missouri Public Service Commission Rules and Regulations and submitted with an October 31, 2003 issue date and a proposed effective date of December 18, 2003. These tariff revisions are available on Sprint's website at www.sprint.com/tariffs.

The purpose of this filing is to modify rates in accordance with Sprint's Price Cap regulation, pursuant to Section 392.245, RSMo 2000. Within this filing, Sprint is adjusting its basic rates by the change in the CPI-TS as required by 392.245.4(a) updating its maximum allowable prices for non-basic services and adjusting certain rates as allowed by 392.245.11; and adjusting certain switched access rates as allowed by 392.245.9.

All affected customers will receive thirty (30) days advance notification of these changes, as previously communicated to the commission's staff. A summary of the rate adjustments and supporting calculations have been provided to Mr. William Voight under separate cover.

Commission consideration and timely approval of these pages are respectfully requested. If you have questions or need additional information regarding this filing, you may call Mark Grover at (913) 315-8549 or Lisa Padilla, toll free at (866) 727-4350 or (913) 315-9370.

E. TOLL RESTRICTION

1. General

Toll Restriction service provides a means of restricting access to the Long Distance Message Telecommunications Network by direct dial or operator handled.

The service may be provided to individual line customers in exchanges equipped to program the service without alteration of the central office equipment. Toll Restrictions may be provided on access lines in connection with PBX or Centrex services.

1+710 Government Emergency Telecommunications Service Calls will not be blocked in the central office and will be completed.

Lifeline subscribers may receive Toll Restriction Service without paying a monthly or non-recurring charge.

Restriction of access to operator services prevents the customer from dialing an operator for all purposes including emergencies, assistance and the placing of toll calls. The customer indemnifies and saves harmless the Telephone Company from any and all claims, losses or damages caused by restriction of access to operator services.

2. Rates and Charges

These rates and charges are in addition to the established monthly and non-recurring charges applicable to services or equipment associated with Toll Restriction service.

F. BILLED NUMBER SCREENING

1. General

Billed Number Screening is a service which through operator screening prevents the receipt of incoming collect and/or third number billed calls from being billed to the customer. The customer's telephone number is included in the data base that is made available to companies which provide validation services. Inclusion in the data base indicates these calls will not be allowed for billing to the customer's line. The customer benefits from Billed Number Screening as the service eliminates nuisance third party calls and blocks the receipt of collect calls.

Operator screening of incoming collect, international collect and third number billed calls is limited to Local Exchange Companies or Carriers which access the validation data base and cannot be guaranteed. Therefore, charges for any such calls received from a Local Exchange Company or Carrier not accessing the validation data base will be the responsibility of the customer.

Billed Number Screening is available to all classes of service which utilize the public switched network for long distance calling. The monthly recurring rate is not applicable for Payphone Line Service.

2. Rates and Charges

A Service Order Charge as specified in Section 30 of this Tariff is applicable per main billing number when this service is installed or changed subsequent to the service with which it is associated or for any change in options. The Service Order Charge is not applicable for termination of the service.

H. SELECTIVE CLASS OF CALL SCREENING

1. General

Selective Class of Call Screening enables a customer, by means of Telephone Company operator identification, to restrict outgoing toll calls from station users to only those calls which are charged to the called telephone, a third number or a calling card account.

All local calls and calls to Telephone Company numbers such as repair service, Directory Assistance service, and public emergency service numbers, such as 911, will be permitted.
