Subject: RE: Communication on PPP Possibilities in KCMO

Steve:

I am writing to inform you and would appreciate you sharing with the commissioners that Missouri American Water has been engaged in discussions with various stakeholders in Kansas City, Missouri regarding the availability of opportunities for possible public private partnerships between us and the city of Kansas City relating to its water and/or wastewater systems. These meetings have been introductory and exploratory in nature and have involved conceptual discussions of possible public private partnership arrangements. It is our understanding that Ingram's Magazine and the Kansas City Star will be publishing articles in the next several days in which the City's water and wastewater systems will be discussed. It is very possible that Missouri American Water and its activity in Kansas City I described above may be mentioned in these articles. As such, I wanted to make you aware of this. Please let me know if you have any questions.

Regards,
Frank

Frank L. Kartmann
President
Missouri American Water
