Chris Sawall, CISSP is the Managing Supervisor – Cyber Security at Ameren Services Company in Saint Louis, MO with over 11 years of experience in the energy industry and over 14 years of experience in the cybersecurity field. Chris is responsible for ensuring Ameren's overall cybersecurity including Information Technology, Power Plants, Transmission, Distribution, and Gas Operations. He leads the company's corporate Information Security group which is charged with managing Governance, Compliance, Business Systems Security, Control Systems Security, and Security Awareness programs as well as providing cybersecurity subject matter experts to all business segments including a nuclear station. Chris is responsible for ensuring Ameren responds to and is in compliance with all cyber-related NERC and NRC regulations and alerts. Chris also focuses a significant amount of time on current and pending legislation, working with his peers in DC and with industry groups to help shape future regulatory requirements. He also supports the board and executive management reporting requirements and manages the Cybersecurity Program.

Chris is an active member of the SERC CSCAG and Critical Infrastructure Protection Committee (CIPC), chairs the Edison Electric Institute (EEI) Security Committee, is a member of the American Gas Association (AGA) Security Committees, part of the UNITE Security Director's team, a fellow on the National Board of Information Security Examiners, and is active on many educational research projects at EPRI, Georgia Tech, and the University of Illinois. Chris has given security-related presentations at the RSA Security Conference and ABB's Automation and Power World conference.

Chris holds a Bachelor of Science degree in Telecommunications Management from DeVry Institute of Technology. He also holds a Certified Information Systems Security Professional (CISSP) certification from ISC².

50 word version

With 11+ years of experience in the energy industry and cybersecurity field, Chris is responsible for cybersecurity across all business segments; and for regulatory cyber-related compliance. Chris oversees Governance, Compliance, Business Systems Security, Control Systems Security, Security Awareness, and board/executive level reporting. Chris also serves on several industry committees.

Mary P. Heger
Ameren Vice President, Information Technology
And Ameren Services Center

Mary P. Heger is vice president of Ameren Services Center and Information Technology of Ameren Services, where she directs the staff responsible for all information technology operations, including information security and planning, development and business services operations. She was promoted to vice president in 2009.

Heger began her career in 1976 at Union Electric Company – now known as Ameren Missouri, an Ameren subsidiary. She moved to the Information Technology Function as a programmer in 1981. In 1992, she was promoted to assistant treasurer and manager of Investor Services. After serving in various IT management positions, Heger was promoted to Director of Development, Information Technology in 2004.

She holds a bachelor's degree in management from Maryville University in St. Louis and earned her master's in business administration from Washington University in St. Louis. She is a member of the board of International Institute and a former board member of Craft Alliance and SouthSide Early Childhood Center. She was also a member of the Leadership St. Louis Program, class of 2004-2005.

Named a YWCA 2010 Leader of Distinction, Heger was recognized by the Diversity Journal as a Women-Worth-Watching 2011 award winner. She has served on the Diversity Council at Ameren and in a leadership role for our corporate United Way Women's Leadership Giving Initiative.

Tom Rice
Director, Cyber Security & Technology Planning
Information Technology

Tom Rice has more than 30 years of IT management experience in a variety of positions.

Tom Rice is Director of Cyber Security and Technology Planning where he has the responsibility of directing and coordinating Ameren's Cyber Security Program. He also is responsible for coordinating overall Information Technology strategy development and execution to enable IT to meet current and changing business needs.

Tom began his career with Ameren in 1999 when he joined the Information Technology Function as a Technical Architect. After serving in various leadership positions, Tom was promoted to Director IT Operations in 2004 and remained in that role for 8 years. During this time he directed all aspects of IT operations for Ameren ranging from PC support services, microwave and radios systems operations, and data center operations in St. Louis Missouri, Decatur Illinois and the Callaway Nuclear plant. In 2012, Tom assumed his current role as Director of Cyber Security and Technology Planning

Prior to joining Ameren Tom served in the United States Marine Corps with the vast majority of that time in the information technology and communications field. The last 5 years of his military career Tom worked for the Defense Information Systems Agency where he directed IT operations and technical support services providing support to Army and Marine Corps facilities worldwide.

Tom retired from the United States Marine Corps as a Major after serving 23 years from 1976 to 1999. His personal decorations include the Defense Meritorious Service Medal, Meritorious Service Medal with one Gold Star, Navy Commendation Medal, and Navy Marine Corps Achievement Medal with one Gold Star.

He is a graduate of Northwood University with a Bachelor's Degree in Management.
