KCPL's August 5 filing is related to the recent enactment of amendments to the Missouri Renewable Energy Standard, § 393.1030 RSMo, et.seq, effective August 28, 2013.

The Division of Energy's review also will be in relation to the mandate set forth in § 640.150 RSMo which includes planning for energy resource development; analyzing energy management issues; consulting and cooperating with all state and federal governmental agencies on matters of energy research and development, management, conservation and distribution; assessing the potential impacts on environmental quality; and analyzing the potential for increased use of energy alternatives and making recommendations for the expanded use of such alternate energy sources and technologies.
