

July 27, 2018

Mr. Morris Woodruff
Secretary of the Commission
Missouri Public Service Commission
200 Madison Street, Suite 100
Jefferson City, MO 65102-0360

Dear Mr. Woodruff:

The tariff sheets listed below issued by Union Electric Company d/b/a Ameren Missouri (Ameren Missouri or the Company) were filed as a revision of Schedule No. 6, Schedule of Rates for Electricity, on July 27, 2018:

<u>Filed</u>	<u>Canceling</u>
4th Revised Sheet No. 171.4	3rd Revised Sheet No. 171.4
1st Revised Sheet No. 171.16	Original Sheet No. 171.16
1st Revised Sheet No. 171.17	Original Sheet No. 171.17

These tariff sheets are being issued July 27, 2018 to become effective on and after August 28, 2018.

The revisions being requested will revise the Company's Electric Power Purchases From Qualified Net Metering Units (Net Metering tariff) to support implementation of RS MO 393.1670 which makes solar rebates available to customers whose solar generating facilities become operational on or after January 1, 2019.

The effective date proposed for these revisions is important as many customers and solar developers desire to understand the rules that will be in place governing the new solar rebates as soon as possible due to the solar rebate rate being reduced by 50% after June 30, 2019.

The proposed tariff revisions primarily remove the solar rebate application process from the Net Metering tariff as described in Ameren Missouri's Request for Variance in File No. EE-2019-0027 and were discussed with Missouri Public Service Commission Staff prior to filing.

Sincerely,

Paula N. Johnson

Paula N. Johnson
