

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the Matter of the Revised Tariff Filing     )  
of MoKan Dial, Inc.                                 )

File No. TR-2012-0299

**THE PUBLIC COUNSEL’S MOTION TO COMPEL DISCOVERY  
AND REQUEST FOR EXPEDITED TREATMENT**

COMES NOW the Office of the Public Counsel (Public Counsel or OPC) and for its Motion to Compel Discovery and Request for Expedited Treatment states as follows:

Public Counsel certifies that it has complied with all requirements of 4 CSR 2.090(2). Public Counsel has faced continuing and significant problems with MoKan Dial, Inc. (Company) providing required discovery in this case. Public Counsel now invokes the Missouri Public Service Commission (Commission) authority to enforce discovery under the Commission’s rules and seeks the Commission’s intervention in these unresolved discovery matters so that Public Counsel can receive full and complete answers to its data requests which Public Counsel has a clear and unambiguous right to receive from Company. Public Counsel asks the Commission to issue appropriate orders in the following discovery dispute in favor of Public Counsel and against the Company on Public Counsel’s request to compel the Company to fully and completely respond to data request numbers 1100 through 1116 (See attached Appendix A), and to expedite consideration so that Public Counsel may receive responses to the above listed data requests by no later than 5:00 pm on Friday, April 27, 2012.

**(1) Background**

On November 18, 2011, the Federal Communications Commission (FCC) issued a Report and Order requiring certain telecommunications companies to raise local rates by July 1,

2012, or risk losing some portion of federal Universal Service Funds.<sup>1</sup> On February 27, 2012, Public Counsel sent a series of data requests to the attorneys for the telecommunications companies potentially impacted by the FCC Order, including Company, requesting information designed to clarify concerns whether any resultant tariff changes would reflect just and reasonable rates as required by Section 392.200.1 of the Missouri Revised Statutes (RSMo) Cum. Supp. 2010. To date, no sufficient responses have been received.

On March 20, 2012, essentially the same data requests were sent via email to the Company as formal data requests in this case to clarify concerns whether the proposed tariff changes reflected just and reasonable rates as required by Section 392.200.1. In an email dated March 29, 2012 (See attached Appendix B), the Company provided the following objections to Public Counsel's data requests, pursuant to 4 CSR 240-2.090(2):

1. The Company has elected waiver of rate of return regulation, and is contesting OPC's Motion to Suspend the local rate increase tariffs in part on this basis. Until the Commission rules on the suspension motion, all of OPC's data requests are premature, not reasonably calculated to lead to the discovery of admissible evidence, and it would be unduly burdensome for the Company to have to begin the process of answering or otherwise responding to these data requests in the absence of a Commission Order suspending the tariffs for a review of the company's earnings.
2. OPC DR Nos. 1100, 1102, 1108, and 1105's request for monthly updates in addition to providing the basic data requested is unduly burdensome and unreasonable.
3. OPC DR No. 1101 is vague and overbroad in that it fails to specify what type of reports it is requesting.
4. OPC DR No. 1104 pertains to information the company voluntarily prepared for OPC at OPC's request. Said information was not official, as it was not based on final financial information, as OPC was informed at the time. The Company objects to producing workpapers and supporting documentation for information the company did not consider final/official at the time provided, as it is not reasonably calculated to lead to the discovery of admissible evidence.
5. OPC DR Nos. 1105, 1106, and 1107, insofar as they request information as to the revenues, workpapers, documentation, and charts of account of unregulated activities of companies other than the Company, and of the Company,

---

<sup>1</sup> FCC Report and Order, WC Docket No. 10-90, FCC11-161.

are beyond the scope of discovery as they are not reasonably calculated to lead to the discovery of admissible evidence.

When, on April 11, 2012, the Company indicated that no response to the March 20, 2012, data requests was forthcoming, Public Counsel requested an informal Discovery Conference be held. This informal Discovery Conference was held on April 12, 2012, with Judge Woodruff, the Company, the Staff of the Missouri Public Service Commission (Staff) and Public Counsel present.

**(2) Motion to Compel**

Section 386.450, RSMo 2000, requires the Commission, upon a showing of good cause by the Public Counsel, to order a public utility to produce papers or records of the utility for examination by the Public Counsel. Missouri Regulation 4 CSR 240-2.090(1) states that sanctions may be imposed for the abuse of the discovery process or failure to comply with commission orders regarding discovery.

Company's objections are mainly based on claims that the data requests are premature, not reasonably calculated to lead to the discovery of admissible evidence, and unduly burdensome and unreasonable in the absence of a Commission Order suspending the tariffs for a review of the company's earnings. Public Counsel's right to pose data requests seeking information from any utility and the right to inspect and obtain copies of any utility's records or documents in its possession is coequal to that of the Staff and is broader than the discovery authority permitted other litigants under Commission Rules.<sup>2</sup> This right is not conditioned on considerations of relevance under MO Rule Civ. Pro. 56.01(b)(1) and PSC Rule 4 CSR 240-2.090(1). The Commission has recognized that information sought by the Public Counsel, if not

---

<sup>2</sup> RSMo. Section 386.450 and *In the Matter of Missouri-American Water Company's Tariff* (Case No. WR-2000-281, et al.)(2-2-2000).

relevant, may well lead to other information which is relevant.<sup>3</sup> Therefore, the Commission has determined that Public Counsel and Staff can request records they want in their investigation without any showing that it is otherwise discoverable or is relevant to a specific case even if it is no more admissible in a hearing in their hands than in those of any other party.<sup>4</sup> The Commission has stated that the statute does not require Public Counsel to show that the requested documents are relevant to any particular issue in a contested case. The Commission has also stated that the statute allows the Commission to require the production of the requested documents even if there were no contested case in existence. Therefore, the fact that Public Counsel is requesting production of these documents in the context of this rate increase request does not in any way diminish Public Counsel's right to examine those documents in a timely manner.

Company also claims that data request number 1100, 1102, 1108, and 1105 requests for monthly updates in addition to providing the basic data requested is unduly burdensome and unreasonable. It is common for data requests to include a provision for providing periodic updates of the basic data requested. Merely stating that providing a monthly update is burdensome and unreasonable is not sufficient to support an objection. Given that the Company has not provided even the basic data that was requested, there is no way to determine the scope or size of a monthly update or the time and effort that would be necessary to prepare that update. Thus the Company provides no proof to support its claim and these objections should be overruled.

---

<sup>3</sup> *Staff of the Missouri Public Service Commission, v. Union Electric Company, doing business as AmerenUE, Case No. EC-2002-1*, 2002 Mo. PSC LEXIS 31

<sup>4</sup> *Id.*

Additionally, Company claims that data request number 1101 is vague and overbroad in that it fails to specify what type of reports it is requesting. The data request is quite specific in that it asks for a list of a recurring financial and operating Reports prepared by the Company during the calendar years 2011 and 2012. The Company should have copies available in its files of any financial and operational reports which it prepares on a recurring basis. All that is requested is a listing of those recurring reports. Therefore, this request is not vague or overbroad and this objection should be overruled.

**(3) Grounds for Expedited Treatment**

Public Counsel requests expedited treatment in this motion due to the fact that the proposed tariff effective date of July 1, 2012, is fast approaching. Thorough discovery is necessary to Public Counsel in its efforts to present its position to this Commission. Without these documents Public Counsel will be unable to clarify concerns whether the proposed rates are just and reasonable as required by Section 392.200.1 or to present a complete and well documented position to the Commission. Additionally, as stated above, the Company risks losing a portion of federal Universal Service Funds if it fails to raise local rates by July 1, 2012. The sooner Public Counsel receives the information it has requested, the more likely its determination will be made within the timeline set by the FCC.

Therefore, Public Counsel requests that the Commission act on its motion in an expedited manner so that Public Counsel may receive responses to the above listed data requests by no later than 5:00 pm on Friday, April 27, 2012.

WHEREFORE, the Office of the Public Counsel respectfully requests that the Commission issue an Order to Compel Responses to Public Counsel's data requests, in full and

completely, no later than 5:00 pm on Friday, April 27, 2012, and for such other and additional relief that is necessary and proper.

Respectfully submitted,

OFFICE OF THE PUBLIC COUNSEL

**From:** Craig Johnson [cj@cjaslaw.com]  
**Sent:** Thursday, March 29, 2012 10:40 AM  
**To:** Robertson, Ted  
**Cc:** Baker, Christina; Mills, Lewis; Buckman, Jere; Debi Nobles  
**Subject:** RE: MoKan Dial Inc. TR-2012-0299 OPC DR Nos. 1100-1116

Ted, Christina, Lewis, Jere:

MoKan Objects to these Data Requests, pursuant to 4 CSR 240-2.090 (2), on the following grounds:

1. The Company has elected waiver of rate of return regulation, and is contesting OPC's Motion to Suspend the local rate increase tariffs in part on this basis. Until the Commission rules on the suspension motion, all of OPC's data requests are premature, not reasonably calculated to lead to the discovery of admissible evidence, and it would be unduly burdensome for the Company to have to begin the process of answering or otherwise responding to these data requests in the absence of a Commission Order suspending the tariffs for a review of the company's earnings.
2. OPC DR Nos. 1100, 1102, 1108, and 1105's request for monthly updates in addition to providing the basic data requested is unduly burdensome and unreasonable.
3. OPC DR No. 1101 is vague and overbroad in that it fails to specify what type of reports it is requesting.
4. OPC DR No. 1104 pertains to information the company voluntarily prepared for OPC at OPC's request. Said information was not official, as it was not based on final financial information, as OPC was informed at the time. The Company objects to producing workpapers and supporting documentation for information the company did not consider final/official at the time provided, as it is not reasonably calculated to lead to the discovery of admissible evidence.
5. OPC DR Nos. 1105, 1106, and 1107, insofar as they request information as to the revenues, workpapers, documentation, and charts of account of unregulated activities of companies other than the Company, and of the Company, are beyond the scope of discovery as they are not reasonably calculated to lead to the discovery of admissible evidence.

I suggest we revisit these DRs after the Commission rules on OPC's motion to suspend.
