

GRAIN BELT EXPRESS
CLEAN LINE

CLEAN LINE
ENERGY PARTNERS

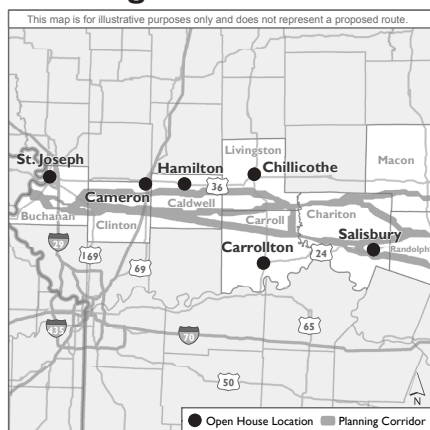

PLEASE JOIN US!

You are invited to a Public Open House to learn about a transmission line project and share your feedback on potential routes.

The Grain Belt Express Clean Line is an approximately 700-mile overhead, direct current transmission line that will deliver low-cost, renewable energy from western Kansas to Missouri, Illinois, Indiana, and states farther east. Similar to the trains that carry grain harvested in the Midwest to market, the Grain Belt Express Clean Line will move wind energy from its source in the grain belt of the country to markets with strong demand for low-cost, clean power.

The Grain Belt Express Clean Line will create thousands of temporary jobs and hundreds of permanent jobs, reduce pollution and water usage, and provide local benefits through property taxes.

Planning Corridors in Your Area

A network of potential routes has been identified for the transmission line and will be presented at the Public Open Houses. The potential routes are still under review at this time and are subject to change based on public feedback, so we are inviting landowners with property within 'planning corridors' centered around each potential route to provide their input.

RSVP TODAY!

Call toll-free **(855)358-9088** or register online at www.grainbeltexpresscleanline.com

| Mon, July 15 | Tues, July 16 | Wed, July 17 | Thurs, July 18 |
