

1st Amendment to WC -2009-0277.  
April 10, 2009 Addition

Water is flowing out of half of the storm drain here when most other areas are dried up.. This is at the corner of Larimore Ave. and Coal Bank Rd. . The culvert at the end if this water runs under Coal Bank Rd. If you look at the telephone pole just to the right of the culvert at the top of the first photo the puddle in the 1st Amendment to WC -2009-0277 is about 15 or 20 feet or to the right of that telephone pole.
