This order directs that notice of this case be sent to all certificated interexchange and basic local exchange telecommunications companies in the state of Missouri and to the North American Numbering Plan Administrator. The order also establishes dates for the filing of requests to intervene and for the filing of recommendations.

On August 18, 2011, Southwestern Bell Telephone Company, d/b/a AT&T Missouri, filed an application and Motion for Expedited Treatment under 47 C.F.R. 52.15(g)(3)(iv) requesting that the Missouri Public Service Commission review and reverse a decision of the North American Numbering Plan Administrator (NANPA), NeuStar, Inc., to withhold certain numbering resources from AT&T Missouri. The numbering resources AT&T Missouri requested consist of two thousands-blocks of consecutive numbers within (1) the 314 NPA, (2) an NXX comprised of X39, (3) XXXX whose ranges do not begin with 0, 8, or 9, and (4) the Ladue rate center. The numbering resources are needed in order to meet the needs of Express Scripts' new business location.

The Commission finds that proper persons should be allowed to file a request for intervention or a motion for hearing. Therefore, the Commission will set a time for interventions as directed below. The Commission will also direct its Data Center to send a copy of this order to each certificated interexchange and basic local exchange telecommunications company in Missouri. In addition, the Data Center shall send a copy of this order to the North American Numbering Plan Administrator, NeuStar, Inc.

The Commission will also direct its Staff to file a recommendation and will establish a date by which any other party wishing to respond must file a recommendation.
