

Missouri Public Service Commission
Case No. EC-2014-0224
Response of Noranda to
Data Request No. Ameren 6
Date Received: April 3, 2014
Date Due: April 23, 2014

FILED³

JUN 24 2014

DATA REQUEST NO: Ameren DR 6.13

**Missouri Public
Service Commission**

- 6.13 Has Noranda engaged in any negotiations with any party regarding such parties position on, or involvement in, the two complaint cases that it has filed against Ameren Missouri. If so, please explain in detail what negotiations have taken place and provide copies of any written agreements that resulted from these negotiations. If there are oral agreements, please explain in detail the terms of the oral agreements.

RESPONSE:

Noranda engaged in negotiations with Ameren prior to filing the two complaint cases. Noranda offered to refrain from filing the earnings complaint in EC-2014-0223 in exchange for a reduction in Ameren's overall rates to all customers. Ameren rejected Noranda's offer. Noranda also requested Ameren's support or non-opposition to a reduced rate for Noranda. Ameren stated that conditions to its support of a reduced rate for Noranda would be Noranda's agreement to support or refrain from opposing legislation supported by Ameren, refrain from opposing Ameren in Ameren's MoPSC rate cases, and terminate participation in the Fair Energy Rate Action Fund (FERAF). Noranda rejected Ameren's proposed conditions.

Other than the negotiations with Ameren described above, Noranda has not engaged in negotiations with any party, nor has entered into any written or oral agreements with any party, regarding such parties' position on, or involvement in, the two complaint cases. Noranda discussed its plans to file these cases with several of the parties and requested their support for its positions.
