PUBLIC SERVICE COMMISSION MO. PUBLIC SERVICE COMM

RE: Case No. HO-86-139; KCPL
Support of Intervenor's
Motion for Public Hearing

Dear Mr. Hubbs:

KCPL supports the January 14, 1987, Motion of Boatmen's First National Bank of Kansas City, et al., for local public hearings in these proceedings, and is in general agreement with the reasons stated for such hearings. Because this case deals not only with a proposed rate increase, but also with the very nature of future steam service, local public hearings will afford KCPL's steam customers a convenient opportunity to testify on matters which may fundamentally affect their steam service.

Should the Commission decide to conduct local public hearings, KCPL offers the use of the auditorium on the fourth floor of its general offices. The auditorium is large enough to accommodate all of KCPL's steam customers, the Commission, Staff and other likely participants.

Please bring this to the Commission's attention.

Sincerely,

B. J. Beaudoin
