

In the Matter of PGA/ACA filing of)
 Atmos Energy Corporation for the West)
 Area (Old Butler), West Area (Old)
 Greeley), Southeastern Area (Old SEMO),) Case No. GR-2008-0364
 Southeastern Area (Old Neelyville),)
 Kirksville Area, and in the Northeastern)
 Area.)

COMES NOW Atmos Energy Corporation ("Atmos" or "Company"), by and through its attorneys, pursuant to Missouri Public Service Commission ("Commission") Rules 4 CSR 240-3.015 and 240-2.080(16) and requests that the Commission grant it a waiver from the Atmos tariff provisions on P.S.C. Mo.No. 2, Sheet Nos. 40-43 to allow the filing of a revised ACA factor at this time to allow the discontinuance of the ACA factor of the Old Butler District, even though the Company has already revised its ACA factor during the last twelve months. In support of this Motion, Atmos respectfully states:

2. A certified copy of Atmos' certificate of authority to do business as a foreign corporation in Missouri was filed with the Commission in Case No. GR-2006-0387, which was

Atmos' most recent general rate proceeding in Missouri. Said document is incorporated herein by reference in accordance with 4 CSR 240-2.060(1)(G) and made a part hereof for all purposes. Atmos is a "gas corporation" and a "public utility" as those terms are defined in Section 386.020 of the Revised Statutes of Missouri and as such is subject to the jurisdiction of the Commission as provided by law.

3. Atmos may have pending actions against it involving customer service or rates having occurred within three (3) years from the date of this Application in certain of the jurisdictions in which it provides service, but none in Missouri. Atmos has no annual report or assessment fees that are overdue.

4. Simultaneously with the filing of this Motion, Atmos is filing a revised tariff sheet which is designed to discontinue Atmos' Actual Cost Adjustment ("ACA") factor for the Old Butler District. The tariff has an issue date of February 13, 2009, and an effective date of March 1, 2009. Since Atmos has already filed an ACA factor during the last twelve months, it may be necessary for the Company to obtain a waiver to allow it to file a second ACA factor for this District during the same twelve month period. Atmos' tariffs also provide that such proposed changes should be filed with effective dates that allow the Commission Staff ten (10) business days to review the tariffs.

5. During the 2006 Atmos rate case, Case No. GR-2006-0387, the Commission authorized the Company to consolidate its six PGA areas into four PGA areas. However, as noted in the Commission's Report & Order, Staff witness Tom Imhoff testified at the hearing "that Staff will have each individual 'legacy' district take care of its respective Actual Cost Adjustment (ACA) balances to 'zero them out.'" (Report & Order, p. 35) As a result, the Company has maintained separate ACA factors for its legacy districts until such time as the

ACA balances neared zero. At this time, the Company believes that the ACA balance for the Old Butler District will be nearing a zero balance by March 1, 2009. As a result, it is now appropriate to discontinue this ACA factor to become effective on March 1, 2009. Accordingly, Atmos respectfully submits that good cause exists for granting the relief requested herein. No other public utility will be affected by such waiver.

6. In order that authorized tariffs may become effective as soon as possible to reflect Atmos' discontinuance of the ACA factor for the Old Butler District, as contemplated by the Commission's Report & Order in Case No. GR-2006-0387, Atmos respectfully requests that the Commission issue its Order Approving Tariff and allow the tariff to go into effect on March 1, 2009, and grant it a waiver from any tariff provisions that would otherwise limit the filing of another ACA factor for this district at this time. This will permit Atmos to implement the change in its ACA factor in an orderly fashion with its March billing cycle.

7. Pursuant to 4 CSR 240-2.080(16), the Company requests that the Order Approving Tariff be effective no later than March 1, 2009. In addition, since the ACA balance will be close to zero on that date, expedited approval of the revised tariff sheet is requested. Delay in the approval may result in increasing ACA balances for this district that would cause the over recovery balance to become under recovered. This pleading is also being filed as soon as it could have been once it became apparent that the ACA balance will be nearing a zero balance on March 1, 2009.

WHEREFORE, Atmos Energy Corporation respectfully requests that the Commission, on an expedited basis, authorize its tariff to become effective on March 1, 2009, and grant it a waiver from any tariff provisions that might not allow for the change of the ACA balances at this time.

Respectfully submitted,

/s/ James M Fischer
