

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Union Electric)
Company d/b/a Ameren Missouri for Permission and) **File No. EA-2020-0371**
Approval and a Certificate of Public Convenience and)
Necessity)

**AMEREN MISSOURI'S NOTICE OF
COMPLIANCE WITH CONDITIONS a AND c FROM
COMMISSION'S CCN ORDER**

COMES NOW Union Electric Company d/b/a Ameren Missouri ("Ameren Missouri" or "Company"), and pursuant to the settlement reached among the parties to the above-captioned matter, provides certain compliance items. In support hereof, the Company respectfully states as follows:

1. Ameren Missouri sought a CCN authorizing it to construct, install, own, operate, maintain, and otherwise control and manage a solar generating asset and all associated facilities in Montgomery County, Missouri, to serve as the second Program Resource for Ameren Missouri's Community Solar Pilot Program ("Program").

2. Ameren Missouri, the Staff of the Commission ("Staff"), the Office of the Public Counsel ("OPC"), and Renew Missouri Advocates d/b/a Renew Missouri ("Renew Missouri") (collectively referred to as "Signatories") filed a *Unanimous Stipulation and Agreement* on March 15, 2021, which resolved all the issues among the parties and requested the Commission grant Ameren Missouri a CCN with conditions.¹

¹ The agreement represents that Sierra Club, the only party that did not sign the agreement, does not object to the agreement.

3. The Commission issued its *Order Approving Stipulation and Agreement and Granting Certificate of Convenience and Necessity*, which states an effective date of April 3, 2021 ("CCN Order").

4. The CCN Order granted the requested CCN subject to certain conditions, including:

a. Ameren Missouri shall contact the Missouri Department of Transportation ("MODOT") and the Norfolk Southern Railway to inquire of any concerns with the Montgomery solar facility and, for MODOT, the additional issue of the possibility of glare and file documentation regarding the contact in this case file.

c. Staff and Ameren Missouri shall jointly file agreed upon in-service criteria for the Montgomery solar facility with the Commission within 90 days of granting the CCN. The filed in-service criteria will be used to evaluate whether the Community Solar facility, once operational, meets the fully operational and used for service standard in Section 393.135, RSMo.

5. With regard to condition a, as shown in the attached correspondence included in Exhibits A and B, Ameren Missouri has contacted MODOT and the Norfolk Southern Railway, respectively, to inquire of any concerns with the Montgomery solar facility, and for MODOT, the additional issue of the possibility of glare. On April 13, 2021, Company representatives met with MODOT representatives regarding the Montgomery solar facility, and sent the confirming email attached as Exhibit A. Company representatives have also sent information regarding the Montgomery solar facility to Norfolk Southern Railway representative as shown in Exhibit B. Neither MODOT nor Norfolk Southern Railway have responded with any concerns. The documentation in Exhibits A (MODOT) and B (Norfolk Southern Railway) is hereby filed in compliance with condition a of the CCN Order.

6. With regard to condition c of the CCN Order, Staff and Ameren Missouri have discussed and reached agreement on the in-service criteria set out in Exhibit C, and appreciate the presiding Judge's grant of the slight extension needed to reach such agreement. Staff has indicated that Ameren Missouri may represent that the in-service criteria set out in Exhibit C are agreed upon.

WHEREFORE, Ameren Missouri respectfully requests that the Commission accept this Notice, and for any other relief the Commission deems appropriate.

Respectfully submitted,

**UNION ELECTRIC COMPANY
D/B/A AMEREN MISSOURI**
