

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Tariff Filing of)
Chariton Valley Telecom Corp.)
to Comply with the FCC's) **File No. _____**
Order of April 25, 2012, Second Order on)
Reconsideration, WC Docket No. 10-90.)

MOTION FOR EXPEDITED TREATMENT

Comes now Chariton Valley Telecom Corporation ("Company"), for its Motion for Expedited Treatment of tariffs to comply with the FCC's Order of April 25, 2012, Second Order on Reconsideration, WC Docket No. 10-90, in order to apply intrastate originating access charges to originating intrastate VoIP to PSTN traffic, and states as follows:

1. The FCC's November 18, 2011 *USF/ICC Transformation Order*, WC Docket No. 10-90 et al., 26 FCC rcd 17663), required Company to apply its interstate access rates to intrastate toll VoIP to PSTN traffic. Company made a timely tariff filing currently in effect.
2. On April 25, 2012, the FCC issued its Second Order of Reconsideration in WC Docket No. 10-90 et al. This Order held that intrastate access rates, rather than interstate access rates, would be applied to intrastate VoIP-PSTN toll traffic between July 13, 2012 and June 30, 2014.
3. The FCC's April 25, 2012 Second Order was not published in the Federal Register until May 29, 2012.

4. Good cause exists for this Motion for Expedited Treatment in that the FCC's *USF/ICC Transformation Order*, and its subsequent modification and clarification orders, has created an almost overwhelming rash of required Missouri tariff filings, revised tariff filings, and substitute tariff filings covering local rates, access rates, VoIP-PSTN tariffs and rates. In addition, Oregon Farmers Mutual Telephone Company, whose access tariff Company concurs in, just completed a similar filing to revise its tariffs to comply with the FCC's Second Order on June 13, 2012.

5. Company requests that the tariff be made effective July 13, 2012 to comply with the effective date of the FCC's Second Order.

6. Granting expedited treatment will avoid the harm of an incorrect interstate rate being applied to intrastate originating VoIP-PSTN toll traffic. Allowing the tariff to take effect on less than 30 days' notice will have no negative effect on Company's customers in that an effective date of July 13, 2012 will simply match the rates and effective dates directed by the FCC, of which all carriers received notice.

7. As indicated in paragraph 4 above, this pleading was filed as soon as practically possible given the other tariff filings required by the FCC since its *USF/ICC Transformation Order*. This filing was made as soon as possible after Company, Company consultants, and Company Counsel could clear the decks and get this tariff ready for filing.

WHEREFORE, the Company respectfully requests that, on an expedited basis, the Commission enter an Order approving the proposed tariff on an expedited basis to be effective July 13, 2012.

Respectfully submitted,
