Briefing– Linda Beecham

According to the evidence presented I am not convinced that the leak that occurred on my property was not a complete cause of the leak that eroded my property in March of 2017.

As stated during the hearing, I was told by a Field Representative with MAWC, Jennifer, in Oct. 2017 that MAWC was not able to read the meters for approximately a year. MAWC did not supply documentation of the actual day, time and results of the meter readings. They just indicated the readings were actual and not estimated.
