Case # WC-2009-0277

Motion To Rule On
Request On Information March 23, 2009
And 2nd Request On Information From MAWC

I have not received one bit of information that I have requested from Mr. Noce. Please rule that I be provided all information as requested while there is still time. There is no use in having a hearing if I have no information and certainly no use in wasting my time and energy driving several hundred miles to Jefferson City and back.

I just realized what a perfect scam it is. MAWC owns the test equipment to test the system and other equipment needed to prove the water system is leaking. They guard all information that tells the story of the aged and failing water system with there life while playing the game of charades "its not our water" while making repair after repair to this system.

And the burden of proof is on me.
