Case # WC-2009-0277

**MOTION TO COMPEL MAWC TO PRODUCE ALL DOCUMENTS IN  
LEDGIABLE CONDITION WITHOUT ENLARGEMENT OR OTHER  
MANIPULATION ON MY PART AND SET DEADLIND OF  
12:00 JUNE 2, 2009 TO HAVE THESE DOCUMENTS  
IN MY POSSESSION**

If I receive the information by midnight June 2, 2009 this will give me four days to prepare unless I want to allow this pleasant disrespect from MAWC to robb my weekend.

I ask that all information be provided in a easily usable manor that a person of average inelegance could understand and use.

I can not read this map, even when I enlarge it it pixilated before it became legible. I can not tell water main sizes or service line connections or any information that would be expected from a map and It does not accurately represent the water system

To provide a seven inch by seven inch map of a quarter mile radius is blatant disrespect not only to me but to you and this complaint process as well. Mr Jordan could you please print this map and tell me what use it is. I find this highly inflammatory especially after this water problem persisting for the last 20 years.

This is just one more gorilla tactic by MAWC to create chaos and to stall until time runs out and undermine this process while ignoring the problems of a leaking water system that is destroying property and health and prolonging the misery of a leaky basement and the debilitating health problems caused to me from the water.

This has created an excessive burden on myself.
