**NOTICE OF INTENDED CASE FILING**

COMES NOW KCP&L Greater Missouri Operations Company (“GMO” or the “Company”), by and through counsel, and files this Notice of Intended Case Filing. In this regard, the Company respectfully states to the Missouri Public Service Commission (“Commission”):

1. GMO is a Delaware corporation with its principal office and place of business at 1200 Main Street, Kansas City, Missouri 64105. GMO is primarily engaged in providing electric and steam utility service in Missouri to the public in its certificated areas. GMO is an “electrical corporation” and a “public utility” under Section 386.020(15) and (43) and is subject to the jurisdiction, supervision and control of the Commission under Chapters 386 and 393. A Certificate of Authority for a foreign corporation to do business in the State of Missouri, evidencing GMO’s authority to conduct business in Missouri, was filed with the Commission in Case No. EU-2002-1053 and is incorporated herein by reference in accordance with 4 CSR 240-2.060(1)(G).

2. Commission Rule 4 CSR 240-4.017(1) provides, in pertinent part, as follows:

(1) Any person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case. Such notice shall detail the type of case and issues likely to be before the commission and shall include a summary of all communication regarding substantive issues likely to be in the case between the filing party and the office of the commission that occurred in the ninety (90) days prior to filing the notice. The filing of such notice shall initiate a new noticed case and be assigned an appropriate case designation and number. If the expected case filing is subsequently made, it shall be filed in the noticed case. If the

expected case filing is not made within one hundred eighty (180) days, the noticed case shall close.

3. Matt Dority, Director – Regulatory Affairs, indicated to Chairman Daniel Hall on November 14 that GMO would be announcing an economic development project in the coming week and that GMO would subsequently be filing this application. Undersigned counsel is unaware of any other Company communications with the office of the Commission regarding this customer.

4. The Company intends to file an application for a special electric rate for a facility whose primary industry is the production or fabrication of steel in or around Sedalia, Missouri. The Company may seek a waiver, pursuant to 4 CSR 240-4.017(1)(D) so that it can file the application earlier than 60 days from the date of this notice. Issues regarding compliance with the provisions of section 393.355 RSMo. are likely to be before the Commission in this docket.

WHEREFORE, the Company submits to the Commission and its Secretary this Notice of Intended Case Filing.

Respectfully submitted,
